EXPLANATIONS

- The above table shows distributed and planned NFI kit distributions against damaged houses at district level. It also shows NFI kit distributions at sub-district level.
- Coverage figures assume that each household requires two plastic sheets.
- Data on slightly affected households has not been included.
- The data is based on information received so far from implementing agencies (on distributions) and the GoI (on population and affected households). These figures are not definitive.

REFERENCES

- Population (numbers of households per district and subdistrict) and damage (district level only) - GoI, 2008
- Coverage data - gathered from reports submitted to the Shelter Cluster (up to 21st October 2009)
