

## MEETING NOTES

### EMERGENCY SHELTER & NFI Cluster meeting

**28 July 2016, 14:00 – 15:00 pm, NDRMC Office**

**Present:** NDRMC, IOM, UNICEF, GOAL Ethiopia, ACF

Action points	
Consult with the flood taskforce / NDRMC contingency planning focal point on projected needs for ESNFI kits figures	Cluster Coordinator
Follow up and report on distribution of shelter kits from NDRMC stock by NRC and SCI	Cluster Coordinator
Guidelines and SOPs for responding and reporting to requests coming from Regions and Zones	Cluster / NDRMC

#### 1. Introduction: Introduction of all present.

This is the first official cluster meeting being co-chaired by NDRMC (Ms Yehualaeshet) and IOM (Mr. Jan-Willem Wegdam). Special introduction was also made for Ms. Wan Sophonpanich, who will take on the role of cluster coordinator from 1<sup>st</sup> of August.

#### 2. Review of Minutes d.d. 12<sup>th</sup> June 2016

Review of minutes and action points from the previous cluster meeting:

2.1 Share AWD situation updates with Cluster partners	ESNFI cluster coordinator
AWD reports are available with WHO. Current caseload > 6000 cases in Addis Ababa and the rest of Ethiopia.	

2.2 Share forecasted ES NFI needs for 2016 with partners	ESNFI cluster team
The cluster shares ES NFI status projection for 2016 (see below Information Management Section).	

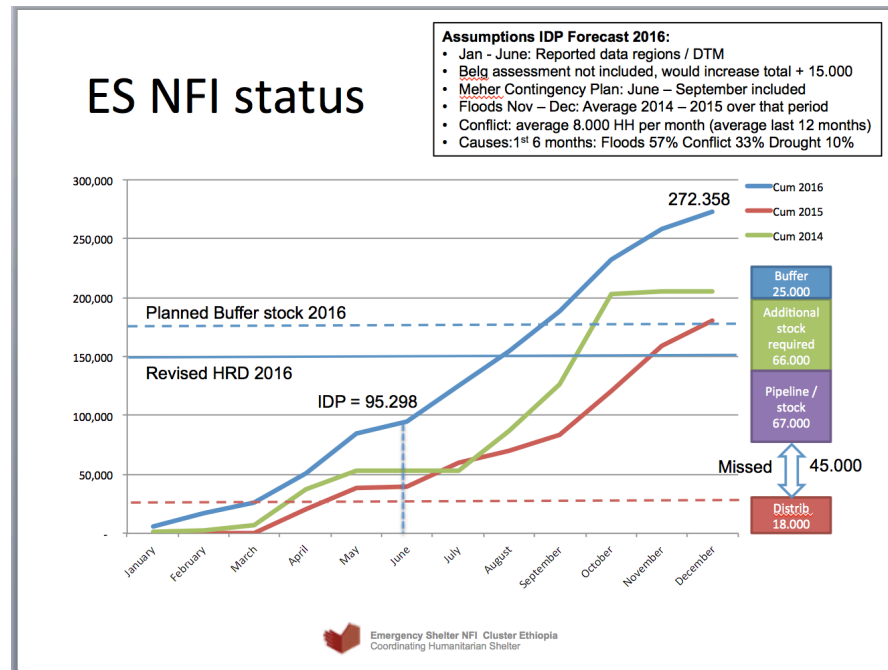

Provide activity, funds spent on Woreda level for 1 <sup>st</sup> Jan – 30 <sup>th</sup> June to cluster for the PMR. Templates shared already	All Cluster members
All partners have reported their figures of activities and funds spent per woreda with the ESNFI cluster. The data has been forwarded to OCHA for inclusion in PMR	

A special meeting on East and West Hararge Response was held on 21<sup>st</sup> July 2016. For Emergency Shelter & NFIs, IMC/IRC and ICRC/ERCS have the capacity to respond and will coordinate with each other. Additional stocks are available with NDRMC and IOM.

#### 3. Information Management:

The cluster shares ES & NFI status projection for 2016.

The estimate IDPs forecast is based on the Meher contingency plan, report displacement Jan-Jun 2016, flood displacement figures from November-December of 2014 and 2015, as well as average displacement based on conflict.

Cause of displacement in the first six months of 2016 has been 57% flood, 10% drought and 33% conflict.

It was noted that the projected displacement figures of over 272,000 is significantly higher than the 150,000 stated in HRD. However, it is also expected that with long lead time for procurement, many of the temporary displacement caseloads will have already return to place of origin.

#### 4. Updates:

NDRMC requests that reports on distribution of DfID's emergency shelter and NFIs kits by NRC and SCI also be shared with NDRMC. The cluster coordinator has agreed to follow up, as the agencies have previously shared that distributions are on-going.

ACF and GOAL enquire to the possibilities of requesting for NFIs to supplement their on-going implementations. At present, there is no established procedures for placing requests with cluster members, but it will be important for the agencies to share areas they are currently working in and have capacity to distribute NFIs.

Guidelines and SOPs for responding and reporting to requests coming from Regions and Zones should be established.

It is important to establish clearer criteria for beneficiary selection purposes.

**NEXT MEETING: Thursday 11<sup>th</sup> AUGUST 2016, 14.00 – 15.00 at NDRMC office**
