Assessment/Verification Methodology

-Which assessment/verification methods did you use and why (eg household interview, focus group discussion, shelter observation inside and out, market survey)

-If verifying, are you working from an existing list, or are you creating a list from scratch?

-How many interviews/FGDs/observations did you conduct? What questions did you ask and why?

-Did you use sampling techniques? If so, please describe.

-Is there any information you feel less confident about? If so why?

RECOMMENDATIONS

If emergency shelter and/or NFI distribution is recommended: loose items.

Define targeting criteria

-need/vulnerability (if vulnerability, define vulnerability categories)

Specify items to be distributed

-Number and type per household - NFI/ES, full kits, loose items

-Specify if quantity of items distributed will vary by household size

Only loose items

Key considerations for distribution -Eg access, logistics, security and protection concerns, push/pull, stakeholders/partners to work with		<u>The whethet started chaging to cool ,it is necessary to protect them by distributing NFI's loose items eg.Blakets,Sleeping mats,Buckle and collapsible Jerry Cans.</u>
If emergency shelter and/or NFI distribution is not recommended:		
Summarise reasons and propose next steps, if any -eg referral to other clusters		
Immediate next steps	Timeline	Who is responsible
<u>distribution</u>	<u>Immediate after PLR Aproved</u>	<u>IOM and RRP</u>
<p>Please submit to IOM Juba (cc your Shelter and NFI Cluster State Focal Point)</p> <p>If this is a verification report, and distribution is recommended, include:</p> <ol style="list-style-type: none"> 1. Completed Pipeline Request Form 2. Distribution List in excel format
