

Danish Refugee Council Monthly Record of Information from program locations in Rakhine State November 2014

The Monthly record represents a snapshot of the situation in the camps and villages where DRC works and aims to capture the issues relevant for DRC operations. This record does not presume to provide a comprehensive picture of the progress and challenges for every sector in each location.

Existing protection referral pathways and the CCCM complaints response mechanism form the foundation of this report. DRC seeks to verify concerns reported to the extent possible and share information with the relevant sectors/agencies for further action.

1. MAIN TRENDS

1.1 Main Trends in IDP Camps

CAMP MANAGEMENT:

- Household cards developed
- Infrastructure safety assessment conducted

SHELTER:

_

> PROTECTION:

- Main protection issues continue to be
- Protection mainstreaming training conducted for all partners

CHILD PROTECTION:

Main cases are

> WASH:

- Maintenance of infrastructure is an issue across camps due to the quality of materials used in the original construction. A lack of ownership for the latrines often results in parts being removed for other purposes, mainly firewood. The use of bamboo sheets often result in warping and loss of privacy. Floor slates are often broken preventing access for squatting.
- Desludging services are available but with end treatment facilities supported by NGO. There are many latrines that require desludging but a limited number of collection trucks operated by Oxfam.
- Many of the camps have very poor drainage or is none existent, causing scouring and uncontrolled flow between the shelters that could lead to undermining of shelter support structures.

> HEALTH:

- There are still gaps
- Very few referrals taking place

NUTRITION:

_

> FOOD:

80% complaints from CRM about food not being

NON-FOOD ITEMS:

- NFI in camps still on hold
- Part of previously distributed NFIs being sold due to lack of income
- **EDUCATION:**
 - Very challenging to find TLS teachers
- > LIVELIHOOD:
 - Lack of activities in camps
- > OTHER ISSUES:

-

- > PROTECTION:

2. HIGHLIGHTS PER LOCATION

(for all locations, copy from highlights in complete update without the follow up section)

- 1. Say Tha Mar Gyi IDP Camp
- 2. Phwe Yar Gone IDP Camp

Food: Food rations temporarily cut by 20%...

NFI: delivery of NFI by UNHCR still on hold since the beginning of the year etc...

Health: IDP reports the clinic the lack of health services as the main need in PYG. IRC runs a clinic in nearby STMG but PYG IDPs do not feel comfortable using it and they have to wait 8 hours without a guarantee to see a doctor.

WASH: During a recent visit, members of the community complained about the use of open concrete drainage as the children often fall in them and injure themselves.

- 3. Ohn Taw Gyi North IDP Camp
- 4. Ohn Taw Gyi West IDP Camp
- 5. Baw Du Pha IDP Camp
- 6. Dar Paing IDP Camp

7. Sat Roe Kya IDP Camp

8. Ohn Taw Gyi South IDP Camp

9. Sin Tet Maw IDP Camp

- IDPs expressed serious concerns about their lack of legal status and rumours on policies that might be adopted by the Government in the next months.
- Shelters are in need of maintenance and that even some have become dangerous for children.
- Access to health services is still limited despite the mobile clinics that visit the camps every month.

10. Ah Nauk Ywe IDP Camp

- Access to health by the IDPs continues to be dramatically limited in the camp, particularly for PWSNs. There are
 not health facilities or clinics in the camp and most of the IDPs have no financial means to buy medicines or to go
 to other places to seek medical assistance.
- IDPs who moved from other camps to Ah Nauk Ywe Camp are in need of shelters. These HHs are temporarily staying in the kitchen facility in the camp or with relatives. The lack of shelters for these families could raise protection concerns such as frictions with other IDPs, SGBV, and exploitation, among others.
- Access to latrines is still challenging for persons with disabilities, elderly, children and pregnant women as these
 are too high and lack proper handrails. Moreover, latrines are not sex segregated and this could cause incidents of
 GBV particularly at night.

11. Kyein Ni Pyin IDP Camp

- Protection monitoring activities are ongoing as well as support to the women's group.

12. Say Tha Mar Gyi Village

Protection monitoring activities are ongoing as well as support to the women's group.

13. Phwe Yar Gone Village

- Protection monitoring activities are ongoing as well as support to the women's group.
- LLH: DRC distributed business grants to 14 Female Headed Households
- WASH: DRC set up a WASH committee and started the construction of communal latrines and XX hand pumps
- HEALTH: diarrhoea cases reportedly increasing

14. Pa Lin Pyin Muslim Village

15. Pa Lin Pyin Rakhine Village

16. Ohn Taw Chay Village

- Protection monitoring activities are ongoing as well as support to the women's group.

17. Ohn Taw Gyi Village

- Protection monitoring activities are ongoing as well as support to the women's group.

18. Baw Du Pha Village

Protection monitoring activities are ongoing as well as support to the women's group.

19. Dar Paing Village

Protection monitoring activities are ongoing as well as support to the women's group.

20. Zaw Bu Gyar Village

- The security in the village and surroundings has improved. Reportedly, relations between the villagers and Muslim communities have improved and some of them have employed Muslims to carry out farming activities.

21. Ohn Ye Paw Village

22. Sin Tet Maw Village

- Protection monitoring activities are ongoing as well as support to the women's group.

23. Ah Htet Ywar Village

Protection monitoring activities are ongoing.

24. Baw Da Li Village

- Protection monitoring activities are ongoing as well as support to the women's group.

25. Ah Nauk Ywe Village

Protection monitoring activities are ongoing as well as support to the women's group.

26. Sin Aing Village

- Reportedly, there have been some tensions between the inhabitants from Sin Aing village and neighbouring villages.

27. Kyauk Pyin Seik Village

- The elementary school in the village was rehabilitated by DRC and furniture and stationary were provided for the school.

3. FULL UPDATE PER LOCATION

1. Say Tha Mar Gyi IDP Camp Population: approx. 11,700 IDPs

Activities and issues:

CAMP MANAGEMENT: DRC full range of activities on-going, focus on access to services monitoring and referral, shelter maintenance monitoring, and integration of camp representatives into camp coordination meetings. Field Office Assistant and volunteers collected data on WASH services in the camp, including indicators relating to water points, latrines, drainages, and solid waste management. A Focus Group Discussion with both CMC and Women Group was held about what sort of training they would most prefer to attend. 16 Days of Activism Against Violence Against Women and Girls 2014 was advocated by DRC staffs and volunteers. Furthermore, an assessment (individual interviews) on household fuel usage of IDPs was conducted. As for Community Service Activities, library sessions continued for two days each week.

SHELTER: IDPs complained about the condition of their shelters' roofs, walls and floors. DRC (CCCM) staffs, the DRC shelter engineer, the Field Office Assistant, and the volunteers did shelter maintenance monitoring regarding the most damaged parts.

CHILD PROTECTION: Regular activities of SCI are on-going and the CFSs are running regularly. Activities focussed on recreational activities for children and students, such as handicraft and painting, handwashing training, and health education session at the CSFs. There were no new child-related protection cases that had to be followed up.

WASH: Regular activities by Oxfam (WASH) focused on cleaning of latrines, drainages, and camp area, as well as hand-washing training, hygiene promotion session with CMC and all IDPs, including training on use of ceramic water filters. Volunteers and some other IDPs joined a camp cleaning event. A list of people with disabilities was collected and wheel chairs will be provided. Furthermore, 50 new double latrines are being built and 80 boreholes are being repaired, while there are plans to build 800 concrete laundry slabs and 100 bathrooms.

HEALTH: MRF and MHAA clinic treated over 1,800 patients, with most common diseases being fever, skin itching, and diarrhoea. Further services included DEPO injection for those who would like to do family planning, ATT injections for pregnant women, and nutrition powder for children under five years. However, due to the fact that medical services are not provided every weekday, medical emergencies become a challenge for many IDPs. IDPs reported that diarrhoea is more of an issue now, especially for children. MRF and IRC conducted joint diarrhoea assessment and held a meeting on referral of diarrhoea patients.

NUTRITION: SCI regular activities are on-going, focussing on mother-to-mother sessions, behaviour change communication, health education sessions, and individual counselling. Furthermore, SCI did MUAC for children under five years and ACF did MUAC for children under two years. MHAA did MAUC screening as well, and if they found malnourished children, they distributed nutrition powder. MHAA also gave ATT injection to pregnant women.

FOOD: WFP food distribution for the month of November completed by week 3. Furthermore, WFP staffs asked IDPs about food concerns. Some IDPs said that the provided food is not enough, as they sell some of it in order to buy firewood, vegetables, and fish.

NON-FOOD ITEMS: No agencies supported NFI kits in the camp, the residents are in need of mosquito nets, as well as cooking pots, and other kitchen utensils.

EDUCATION: Plan International TLSs are running, focus on recruiting volunteer teachers, construction of 3 new TLSs, renovation of multipurpose building, and discussion with parents and teachers regarding ToR and CoC at the TLS. There is a plan to collect student list for distribution of student kits.

LIVELIHOOD: Currently no support to livelihood activities.

OTHER ISSUES: UNOCHA visted and talked with CMC and other IDPs regarding their main concerns.

FOLLOW UP ON FORMER ISSUES: NTR

 Follow up, challenges and advocacy

DRC Protection
Team will follow
up with health
actors on the
provision of
health services in
the camp.

PROTECTION: Protection monitoring, activities with the women's group, and identification of PWSNs for IPAs are ongoing.

Due to the fact that medical services are not provided on a daily basis in the camp, medical emergencies become a challenge for many IDPs. Those who have the financial means to pay for transport and other charges go to Dapaing Clinic. Others have to rely on pharmacies in the camp and what the storekeeper prescribes for them. Cases of diarrhoea are common in the camp and the death of one baby (7 months) was reported.

It was also reported by the IDPs that due to the lack of firewood, IDPs are forced to take wood/bamboo from common facilities such as the kitchens, showers and latrines. Women and girls cannot use any of the communal showers in the camp as these have been damaged by IDPs who have taken the wood for cooking.

It was reported that IDPs who moved from another camp to STMG in the last months have not received their food rations in the last month and neither WFP nor the Food Committee has provided any justification or explanation to this. It was reported that most of the IDPs in the Camp want to remove the current Food Committee as there are allegations of corruption and extortion.

Follow up on former issues

NTR

The DRC Protection Team continues to monitor the situation in the camp as well as unhindered access to basic services by all IDPs.

DRC Protection
Team will follow
up with health
actors on the
provision of
health services in
the camp.

The DRC Protection Team has raised the lack of food distribution to IDPs in the camp to DRC CCCM but the situation continues to be the same.

2. Phwe Yar Gone IDP Camp

Population: approx. 2,400 IDPs

- Diarrhoea causes the death of one baby in the camp.
- Difficulties in the access to latrines by PWSNs due to the lack of handrails to support their access.
- Some of the IDPs are conducting livelihood activities in surrounding villages reportedly.
- -WASH During a recent visit, members of the community complained about the use of open concrete drainage as the children often fall in them and injure themselves.

Other update on activities and issues

CAMP MANAGEMENT: DRC full range of activities on-going, focus on access to services monitoring and referral, shelter maintenance monitoring, and integration of camp representatives into camp coordination meetings. Field Office Assistant and volunteers collected data on WASH services in the camp, including indicators relating to water points, latrines, drainages, and solid waste management. A Focus Group Discussion with both CMC and Women Group was held about what sort of training they would most prefer to attend. Additionally, the CMC identified the lack of firewood and NFIs (especially solar light around the latrines area) as the main problems in the camp. 16 Days of Activism Against Violence Against Women and Girls 2014 was advocated by DRC staffs and volunteers. Furthermore, an assessment (individual interviews) on household fuel usage of IDPs was conducted. As for Community Service Activities, library sessions continued for two days each week.

SHELTER: IDPs complained about the condition of their shelters' roofs, walls and floors. DRC (CCCM) staffs, the DRC shelter engineer, the Field Office Assistant, and the volunteers did shelter maintenance monitoring regarding the most damaged parts.

CHILD PROTECTION: Regular activities of SCI are on-going and the CFSs are running regularly. Activities focussed on recreational activities for children and students, such as handicraft and painting, and health education sessions at the CSFs. There were no new child-related protection cases that had to be followed up.

WASH: Hygiene kit distribution has taken place and assessments of the latrines. Desludging has been planned for the first week in Dec 14.

HEALTH: The MRF and MHAA clinic in STMG camp is accessible for IDPs in PYG. However, due to the fact that medical services are not provided every weekday, medical emergencies become a challenge for many IDPs. In PYG, no major health issues reported, but skin infection was more common than before. IDPs mentioned the lack of health facility in PYG as an issue.

NUTRITION: SCI regular activities are on-going, focussing on mother-to-mother sessions, behaviour change communication, health education sessions (including diarrhoea awareness), and individual counselling. Furthermore, SCI did MUAC for children under five years, provided a cooking demonstration, and did joint screening with ACF on malnourished children.

FOOD: WFP food distribution for the month of November completed by week 4. Furthermore, WFP staffs asked IDPs about food concerns. Some IDPs said that the provided food is not enough, as they sell some of it in order to buy firewood, vegetables, and fish.

NON-FOOD ITEMS: No agencies supported NFI kits in the camp, the residents are in need of mosquito nets, as well as cooking pots, and other kitchen utensils.

EDUCATION: SCI and Plan International activities on-going. SCI staffs visited their TLS to observed needs of students, while constructing one TLS for the NFE program intended for youth aged between 11 and 18 years.

 Follow up, challenges and advocacy

DRC (CM) in coordination with Shelter Cluster to address IDP's needs.

Cases of domestic violence will be referred to relevant GBV actors in the camp.

The case of the death of the baby was referred by DRC (CM) to DRC Protection, which gathered further info on the case, which was also shared with WASH Cluster.

DRC Protection is monitoring deaths of infants in camps and villages to identify causes as well as any problems regarding access to health services.

The DRC Protection Team continues to monitor the situation in the camp as well as unhindered access to

LIVELIHOOD: Provision of cash grants, Cash Management and Bookkeeping Training, as well as ongoing technical support for and monitoring of Female Headed Households. Furthermore, identification of and consulting with households selected for IPA.

OTHER ISSUES: UNOCHA visted and talked with CMC and other IDPs regarding their main concerns. FOLLOW UP ON FORMER ISSUES: NTR

PROTECTION: Protection monitoring, activities with the women's group, and identification of PWSNs for IPAs are ongoing.

In relation to food ration distribution, IDPs in the Camp are monthly receiving their rations except for those who recently moved from other camps to PYG. It was also indicated that WFP has not updated its list of beneficiaries in the last months, particularly, that some of the beneficiaries have died and babies have born.

The IDPs in PYG have asked for health facilities to be set up in the camp as they usually have to go to the facilities in STMG.

Follow up on former issues

NTR

basic services by all IDPs.

The Protection Team is monitoring deaths of infants in camps and villages to identify causes as well as any problems in the access to health services by the IDPs in camps. Relevant information is being shared with DRC CCCM as part of the referral process.

3. Ohn Taw Gyi North IDP Camp

Population: approx. 13,700 IDPs

Tensions between IDPs and contractors working in the camp were reported as well as threats against IDPs.

 Follow up, challenges and advocacy

Allegedly, 8 children died from diarrhoea in the camp. This was reported to the Government and DRC CCCM by the Camp Committee.

Other update on activities and issues

CAMP MANAGEMENT: DRC full range of activities on-going, focus on access to services monitoring and referral, shelter maintenance monitoring, and integration of camp representatives into camp coordination meetings. Field Office Assistant and volunteers collected data on WASH services in the camp, including indicators relating to water points, latrines, drainages, and solid waste management. A Focus Group Discussion with both CMC and Women Group was held about what sort of training they would most prefer to attend. Furthermore, the CCCM team facilitated a meeting between OCHA, CMC, and Women Group, and negotiated between CMC, land owner, contractor, and SCI staff regarding renovation and construction of latrines, boreholes, and drainages. 16 Days of Activism Against Violence Against Women and Girls 2014 was advocated by DRC staffs and volunteers. Furthermore, an assessment (individual interviews) on household fuel usage of IDPs was conducted. As for Community Service Activities, library sessions continued for two days each week.

SHELTER: Some of the shelters' roofs, walls, and floors are in bad condition. DRC (CCCM) staffs, the DRC shelter engineer, the Field Office Assistant, and the volunteers did shelter maintenance monitoring regarding the most damaged parts. Those damaged shelters need to be renovated as soon as possible as this is top priority for the camp residents.

CHILD PROTECTION: DRC (CP) team carried out their regular activity, providing Youth Group with life-skill training, holding parenting sessions for mothers and fathers, and conducting a ceremony for 16 Days of Activism Against Violence Against Women and Girls 2014. All CFSs of SCI and LWF are running regularly. There were no new child-related protection cases that had to be followed up.

WASH: SCI (WASH) running full range of activities, focussing on CHP home visits, latrine desludging, organizing hygiene training for CPG, hygiene promotion sessions, ceramic water filters distribution and monitoring, and renovating damaged boreholes and latrines. 50 new latrines have been built as well. Furthermore, training on pure water was provided to TLS teachers and new CHP, hand-washing trainings were provided to Child Club and Mother Club, and CHP did Focus Group Discussion and gave soap and soap box.

HEALTH: Mercy Malaysia opened the mobile clinic for three days per week (plus one day in week 4) and MoH for one day per week. All TLS students were provided with health education training. CMC and IDPs complained that one clinic for the whole camp would not be enough.

NUTRITION: ACF regular activities are on-going and nutrition centre opened three days per week in cooperation between ACF and MHAA. ACF and SCI did joint screening on malnourished children. Furthermore, SCI did home visits, held peer to peer group discussion, and held a discussion with pregnant women, providing them with multi-vitamins. Furthermore, 30 IDPs (men and women) joined training provided by Myanmar Red Cross Society (MRCS).

FOOD: WFP food distribution for the month of November completed by week 3. IDPs not on the WFP list received monthly rations instead of 15 day supply. However, some of the people who get ration from MRF made oral complaint as they have been cut of MRF food distribution for about two months. The Government donation of rice was delivered for BDP(61).

NON-FOOD ITEMS: No agencies supported NFI kits in the camp, the residents are in need of mosquito nets, as well as cooking pots, and other kitchen utensils. Also needed are household kits including solar lights and warm clothes for the children.

Cases of domestic violence will be referred to relevant GBV actors in the camp.

DRC (CM) to follow up MRF response to complaint sent by IDPs.

The DRC Protection Team continues to monitor the situation in the camp as well as unhindered access to basic services by all

EDUCATION: Regular education activities of LWF and all TLSs opened regularly. Furthermore, LWF conducted a training (capacity building) for TLS teachers. New latrines and boreholes are being built in OTG-6, and renovated in OTG-3 and BDP-61.

LIVELIHOOD: Currently no support to livelihood activities.

OTHER ISSUES: IRC (WPE) provided sewing machine training to 20 women, did community mapping,

and carried out IEC training.

FOLLOW UP ON FORMER ISSUES: NTR

IDPs.

Advocacy for access to food and health continues with relevant humanitarian partners in the field.

PROTECTION: Protection monitoring, activities with the women's group, and identification of PWSNs for IPAs are ongoing.

The IDPs asked for lights to be placed in the camp or latrines. Reportedly, IDPs fear to go to the latrines at night as there are many "ghosts". The women's group members requested support with the construction of showers and latrines, installation of street lights, and distribution of soap and menstrual pads.

It was also reported problems with food rations as some IDPs who came from Kyauk Phyu, Mye Bone, and Pauk Taw have not received their food rations since August 2014.

Shelters, showers and latrines are in need or maintenance. The fact that most of the showers are not in good condition, makes the situation more difficult for women and girls.

Follow up on former issues

NTR

4. Ohn Taw Gyi West IDP Camp

Population: approx. 3,200 IDPs

Tensions between IDPs and host community over no payment of daily labour wages to the IDPs were reported.

Also there were tensions between the two communities as the livestock owned by the IDPs goes to the host community's land plots and eats the crops.

Other update on activities and issues

CAMP MANAGEMENT: DRC full range of activities on-going, focus on access to services monitoring and referral, shelter maintenance monitoring, and integration of camp representatives into camp coordination meetings. Field Office Assistant and volunteers collected data on WASH services in the camp, including indicators relating to water points, latrines, drainages, and solid waste management. A Focus Group Discussion with both CMC and Women Group was held about what sort of training they would most prefer to attend. The CCCM team also facilitated a meeting between the Danish Ambassador, CMC, and Women Group Furthermore, the CCCM team and Engineer did assessment of warehouse renovation and extension and did assessment of kitchen space to be renovated as library. 16 Days of Activism Against Violence Against Women and Girls 2014 was advocated by DRC staffs and volunteers. Furthermore, an assessment (individual interviews) on household fuel usage of IDPs was conducted.

SHELTER: The camp residents complained that some shelter roofs, walls, and floors are still in need of renovation. DRC (CCCM) staffs, the DRC shelter engineer, the Field Office Assistant, and the volunteers did shelter maintenance monitoring regarding the most damaged parts.

CHILD PROTECTION: DRC (CP) team carried out their regular activity, providing Youth Group with life-skill training, and holding parenting sessions for mothers and fathers. Furthermore, play kits were provided for youth centre, CPG training was provided to Women Group, and list of children with disabilities was collected. There were no new child-related protection cases that had to be followed up.

WASH: CDN (WASH) activities are on-going, focus on desludging, latrine maintenance and renovation, camp cleaning, as well as health education and hygiene promotion training for CDN volunteers. CDN staff also monitored whether the volunteers did regular activities in the camp. Activities of CDN volunteers also included putting lime powder around the drainages once a week, monitoring use of ceramic water filters, monitoring diarrhoea cases, and organizing hand-washing competition. Furthermore, solar lights are set up in the latrine areas. CDN staffs and engineer checked damaged washrooms and latrines regarding required materials for latrines renovation.

HEALTH: IRC opened clinic four days a week (minus one day in week 1 and 2) and MOH opened clinic for one day per week. Most patients suffer from fever (also including Malaria), diarrhoea, skin disease, and coughing. Further services included DEPO injection for those who would like to do family planning. IRC also distributed mosquito nets in Than Daw Li Group and Pauk Taw Group, and discussed with CMC about 16 Days of Activism Against Violence Against Women and Girls 2014.

NUTRITION: ACF regular activities are on-going, focus on home visits and nutrition awareness raising with Men Group and CMC. One child was referred to the OTG-North nutrition centre.

FOOD: WFP did distribution of rice, nutrition powder, and salt (only for 15 days). There were no additional rations for the increased number of IDPs. IDPs complain about food distribution, as they see a lack of rations. One of donor from YGN supported rice, dry chilli, onion, garlic, and oil for Than Daw Li Group.

group.

NON-FOOD ITEMS: No agencies supported NFI kits in the camp, the residents are in need of household kits including winter clothes.

 Follow up, challenges and advocacy

DRC (CM) is following up with the Township Administrator regarding the living conditions of the STMG group.

In relation to the lack of shelters for the families who recently moved to the camp, this was referred to the PWG.

EDUCATION: All TLS of SCI are running. However, the teachers faced difficulty because there was a lack of textbooks. The teachers also demanded fencing for the TLSs. Hygiene training was held for the students and the teachers went to Thet Kay Pyin to discuss education activities, the state of the student, and how the students can pass the examination.

LIVELIHOOD: Provision of cash grants, Cash Management and Bookkeeping Training, as well as ongoing technical support for and monitoring of Female Headed Households. Furthermore, identification of and consulting with households selected for IPA.

OTHER ISSUES: UNICEF discussed with camp residents about difficulties regarding camp condition and food distribution.

FOLLOW UP ON FORMER ISSUES: The DRC Protection Team followed up on the provision of a shelter for the family who stayed temporarily in the women's center. The accommodation of this family was discussed with the Camp Leader and it was decided to move the family to one of the modular buildings until they are given a shelter in the camp. Other IDPs also face the problem of not having their own shelter and, in the meantime, they are staying with relatives in the camp. This could eventually cause frictions, or any protection incidents such as GBV.

PROTECTION: Protection monitoring, activities with the women's group, and identification of PWSNs for IPAs are ongoing.

A family temporarily living in the women's center moved to one of the modular buildings. They have reported that they have not been given any shelter and ask for support to build their own in the camp. Other IDPs also face the problem of not having their own shelter and, in the meantime, they are staying with relatives in the camp. This could eventually cause frictions, or any protection incidents such as GBV.

Reportedly, some HHs are selling alcohol in the camp and this was reported to the Camp Committee.

Shelters and showers are in need of maintenance. Women and girls do not take showers in the communal ones so they have to take showers inside their shelters.

Follow up on former issues

NTR

The DRC Protection
Team continues to
monitor the
situation in the camp
as well as
unhindered access to

IDPs.

In relation to the lack of shelters for the families who recently moved to the camp, this was referred to the PWG.

IDPs are asking for distribution of clothes and blankets for the Winter season. This was referred to the PWG but it was said that the distribution of any NFIs has been suspended.

5. Baw Du Pha IDP Camp

Population: approx. 11,600 IDPs

IDPs reported feeling concerned about Muslim communities in surrounding villages. Allegedly, some items were stolen in the camp and the IDPs don't know who the responsible of this is.

Follow up, challenges and advocacy

Other update on activities and issues

CAMP MANAGEMENT: DRC full range of activities on-going, focus on access to services monitoring and referral, shelter maintenance monitoring, and integration of camp representatives into camp coordination meetings. Field Office Assistant and volunteers collected data on WASH services in the camp, including indicators relating to water points, latrines, drainages, and solid waste management. A Focus Group Discussion with both CMC and Women Group was held about what sort of training they would most prefer to attend. Furthermore, the CCCM team and Engineer did assessment of kitchen spaces to be renovated (including one to become a library). 16 Days of Activism Against Violence Against Women and Girls 2014 was advocated by DRC staffs and volunteers. Furthermore, an assessment (individual interviews) on household fuel usage of IDPs was conducted. Community Service Activities included cane ball matches and setting up a visibility sign board for cane ball, while a potential football competition remained on hold indefinitely.

SHELTER: IDPs reported that some shelter roofs still need to be renovated and some shelters' walling and flooring need to be renovated as well. DRC (CCCM) staffs, the DRC shelter engineer, the Field Office Assistant, and the volunteers did shelter maintenance monitoring regarding the most damaged parts.

CHILD PROTECTION: Regular activities of SCI are on-going and the CFSs are running regularly. Activities focussed on recreational activities for children and students, such as handicraft and painting, and health education session at the CSFs. Furthermore, CFS staffs provided living harmony training to children. There were no new child-related protection cases that had to be followed up.

WASH: SI (WASH) running full range of activities, focussing on camp cleaning, latrines cleaning and desludging, monitoring quality of water in boreholes and in households, diarrhoea tracking surveys, as well as hygiene kit distribution and monitoring. Further activities included shelter visits, trainings on how to use ceramic water filters, a school hygiene promotion program in the TLSs, water testing in households and water points, and setting up hand washing stand near the latrines.

HEALTH: Mercy Malaysia opened the clinic five days a week. No major health cases had to be treated. Most patients were suffering from fever, diarrhoea, or coughing.

NUTRITION: SCI, ACF, and MHAA regular activities around nutrition centre on-going. SCI updated the list of pregnant women, distributed multi-vitamin to pregnant women, and consulted Mothers Group, Men Group, and held peer to peer group meeting in women space for pregnant women. Furthermore, SCI met with CMC regarding CFS renovation. ACF conducted home visits, held meetings with Traditional Birth Attendants, Women Group, Men Group, and also mother in law group. MHAA provided nutrition packages.

FOOD: WFP rations for 15 days were delivered in week 2, 3, and 4, and included rice, beans, salt, oil, and nutrition powder. WFP staffs did food monitoring as well. Government distributed 48 rice bags to 164 host community households, distributed 30 rice bags to 320 IDPs who do not get rations from WFP, and distributed 10 cans of rice to 515 IDPs who don't get ration from WFP.

NON-FOOD ITEMS: DRC had already distributed NFI kits to all of camp residents and not many complaints regarding NFIs at the moment. However, some IDPs requested to provide winter clothes as the weather is getting cold.

EDUCATION: TLSs of SCI opened regularly. Volunteer Teachers from SCI have been trained regarding NFE. Furthermore, SCI is collecting the list of NFE students who are under 18 years. The WASH infrastructure is not functioning well, including damaged boreholes near TLS, missing hand washing

tap, and the students do not seem to use TLS latrines from TLS.

LIVELIHOOD: Currently no support to livelihood activities.

OTHER ISSUES: UNHCR (Protection) held meeting with Women Group and Boy Group. ICRC provided first-aid training to three men and two women in BDP 2. 15 chairs from CMC office were stolen in BDP

1.

FOLLOW UP ON FORMER ISSUES: NTR

PROTECTION: Protection monitoring, activities with the women's group, and identification of PWSNs for IPAs are ongoing.

IDPs continue to report the lack of blankets and winter clothes.

It was reported that due to the lack of livelihoods in the village some of them have taken the decision to leave their village and look for opportunities abroad.

IDPs.

6. Dar Paing IDP Camp

Population: approx. 10,500 IDPs

Follow up, challenges and advocacy

Other update on activities and issues

CAMP MANAGEMENT: DRC full range of activities on-going, focus on access to services monitoring and referral, shelter maintenance monitoring, and integration of camp representatives into camp coordination meetings. Field Office Assistant and volunteers collected data on WASH services in the camp, including indicators relating to water points, latrines, drainages, and solid waste management. A Focus Group Discussion with both CMC and Women Group was held about what sort of training they would most prefer to attend. 16 Days of Activism Against Violence Against Women and Girls 2014 was advocated by DRC staffs and volunteers. Furthermore, an assessment (individual interviews) on household fuel usage of IDPs was conducted. Community Service Activities included cane ball matches as well as setting up a visibility sign board for cane ball.

SHELTER: The camp residents complained that some shelter roofs, walls, and floors are still in need of renovation. DRC (CCCM) staffs, the DRC shelter engineer, the Field Office Assistant, and the volunteers did shelter maintenance monitoring regarding the most damaged parts.

CHILD PROTECTION: Regular activities of SCI are on-going and the CFSs are running regularly. Activities focussed on recreational activities for children and students, such as handicraft and painting, and health education session at the CSFs. Furthermore, CRC training was provided to children on CRC day. There were no new child-related protection cases that had to be followed up.

WASH: SI (WASH) running full range of activities, focussing on camp cleaning, latrines cleaning and desludging, monitoring quality of water in boreholes and in households, diarrhoea tracking surveys, as well as hygiene kit distribution and monitoring. Further activities included shelter visits, ceramic water filter distribution and trainings, a school hygiene promotion program in the TLSs, water testing in households and water points, latrine and borehole repairs, setting up hand washing stand near the latrines, and Focus Group Discussions with Women and Men Groups regarding the use of hand-washing tap. Furthermore, constructed walkway in sector 1, new bathrooms in sector 4, and emergency latrines in tent areas in sector 3 and 4.

HEALTH: IRC opened clinic in Sector 4 opened two days per week. IDPs want this clinic to open daily, as sometimes there is not enough time to treat all patients. To get treatment, some sick persons went to Dar Paing Rural Health Centre which is open daily in DP village. No major health issues were reported. Some Pregnant women regular come to the clinic in order to receive health care. IRC distributed mosquito nets in sector 4.

NUTRITION: ACF, SCI, and MAHH activities are running regularly. SCI opened nutrition centre, conducting counselling sessions for pregnant women, peer-group meetings on women's nutrition. Furthermore, SCI did MUAC measuring for children, picked up the pregnant women list, and provided multi-vitamin to those women. ACF and MHAA nutrition centre opened in DP village. ACF did awareness raising regarding nutrition.

FOOD: WFP delivered food and distribution of 15 day rations by week 4. WFP staff did food monitoring in this camp. Government distributed rice to families who did not get rations from WFP. In sector 4, one private donor from abroad donated the rice to those who don't get food from WFP. In DP counter, food committees received and distributed beans from WFP for 15 days. In tented area, state government administrator supported rice and oil and in sector 4, rice 150 bags and oil 25 gallons have been distributed.

NON-FOOD ITEMS: No agencies supported NFI in the camp in 2014 and the camp residents stated that they want NFI kits that include blankets and clothes, as there will be winter season very soon and especially the children need warm clothes.

EDUCATION: UNICEF handed their activities over to LWF, and all TLS are running regularly. One new TLS is under construction in Sector 3. LWF is planning to recruit more volunteers and advertised job vacancies.

LIVELIHOOD: Currently no support to livelihood activities.

OTHER ISSUES: WFP staff said that they are going to reduce rice at Thae Chaung counter by 20%. IDPs are worried about that. MRF did needs assessment from CMC. Furthermore, RSG administrator asked CMC to collect the list of people who will compete in sport event in December. FOLLOW UP ON FORMER ISSUES: The DRC Protection Team followed up on a reported incident involving a minor.

PROTECTION: Protection monitoring, activities with the women's group, and identification of PWSNs for IPAs are ongoing.

Reportedly, police and military conduct security checks in the camp.

Follow up on former issues

The DRC Protection Team followed up on a reported incident involving a minor.

The DRC Protection Team continues to monitor the situation in the camp as well as unhindered access to basic services by all IDPs.

The DRC Protection Team referred a reported incident involving a minor to SCL for further action.

7. Sat Roe Kya IDP Camp

Population: approx. 3,002 IDPs

Other update on activities and issues

CHILD PROTECTION: Parenting sessions ongoing; youth groups life skills trainings ongoing; case management ongoing; 16 days of activism activities conducted (awareness raising on CP and GBV), drawing competition

SHELTER: shelters are in need of maintenance and the IDPs are concerned about their shelters could not endure the next rainy season.

WASH: WASH actors continue with their activities in the camp. It was reported that the IDPs have to go to fetch water from a nearby monastery (40 min. by foot).

HEALTH:

FOOD: Food rations were distributed in the camp.

NON-FOOD ITEMS:

NUTRITION: Regular activities on-going (ACF).

EDUCATION:

PROTECTION: Regular protection monitoring, and support to women's group ongoing. IPA consultations held with community groups to explain process and criteria.

Tensions over recruitment of volunteers from the SRK1 and SRK2 were reported. Usually community leaders try to have the people in their camps working for international NGOs and they dislike the idea of having volunteers from other nearby camps or villages.

There are not showers in the camp and women and girls have not place where to take a shower. CHILD PROTECTION:

LIVELIHOODS:

• Follow up on former issues

 Follow up, challenges and advocacy

The DRC Protection Team continues to monitor the situation in the camp as well as unhindered access to basic services by all IDPs.

8. Ohn Taw Gyi South IDP Camp

Population: approx. 13,000 IDPs

Activities and issues:

WASH: There is a high number of reported repairs required for the camp and a contract is being prepared to complete initial repairs. Volunteer's numbers will increase from 28 to 60 for which over 500 applications have been received. A large group of approximately 60 people addressed the DRC Hygiene Promotion team and complained that DRC shouldn't hire ex Oxfam. It has been suggested by the CCCM that a lucky draw system should be incorporated but this does not guarantee that the appropriate people are used in the hygiene promotion team. Further talks involving the community, CCCM and protection will be required to resolve the issue to prevent issues arising.

FOLLOW UP ON FORMER ISSUES: NTR

Follow up, challenges and advocacy:

9. Sin Tet Maw IDP Camp

Population: approx. 3,000 IDPs

- It was reported that IDPs feel comfortable going to a nearby Rakhine village and having some livelihood opportunities.
- Shelters are in need of maintenance and that even some have become dangerous for children;
- Access to health services is still limited despite the mobile clinics that visit the camps every month.

Other update on activities and issues

CAMP MANAGEMENT: No updates.

SHELTER: It was reported that most of the shelters are in need of repair works and that some of them are too dangerous for children as they could easily fall. Moreover, the showers in the camp have no doors and, as a result, women do not feel comfortable going there. It was observed that some of the showers have been used as by some IDPs. There are kitchens in the camp, however, these are in need of repair works and IDPs who moved from other camps to Sin Tet Maw are temporarily staying there. It was also reported that the Warehouse (constructed by DRC) is in need of maintenance and that food cannot be stored there as it is in very bad condition.

WASH: Some weeks ago, IDPs stated they need more water especially in eastern and western parts of the camp. Hence water is being pumped from Sin Tet Maw village. SCI is working regularly in their activities as latrine maintenance/ construction, drinking water irrigation from near the village, road renovation between shelters and latrines.

HEALTH: MHAA and State Health Mobile clinic cover medical services. However, it was reported that neither have they medicines nor medical equipment to treat diseases.

FOOD: WFP/SCI distributed food rations to the IDPs with delays.

EDUCATION: SCI is running the elementary school in the camp. IDPs were informed that their children will have to attend the same class as last school year due to the lack of examinations.

NON-FOOD ITEM: the IDPs asked for provision of blankets and winter clothes.

PROTECTION: Women and girls do not feel comfortable taking showers in the shower rooms as these have no doors and are being used as latrines by some IDPs. As a result, IDPs are taking showers inside their shelters and this is causing stagnant water underneath and deterioration of the shelters. Moreover, the IDPs do not have proper access to health care as there is a lack of a well-equipped health center inside the IDP camp or nearby. The bad conditions of the shelters in the camp are a serious concern for the safety of children and other persons with specific needs such as elderly, disabled and pregnant women.

It was also reported that an IDP was attacked and injured by a person from STM Village. The reasons for such attack are unknown. The incident was reported to the police.

NUTRITION: Regular activities by SCI on-going.

CHILD PROTECTION: Regular activities by SCI on-going.

LIVELIHOOD: No updates

Follow up on former issues

The DRC Protection Team followed up on health, shelter, and WASH but unfortunately there has been no major improvement in the situation.

10. Ah Nauk Ywe IDP Camp

Population: approx. 3,900 IDPs

Follow up, challenges and advocacy

DRC Protection has referred to the PWG the situation of IDPs without shelters in the camp. The Protection Team is following closely on the situation of these families and any possible protection concerns.

DRC Protection will follow up with WASH partners on the repair works of the showers in the camps for the women and will check again with UNHCR shelter the on maintenance of the shelters and warehouse in the camp.

- Access to health by the IDPs continues to be dramatically limited in the camp, particularly for PWSNs. There are not health facilities or clinics in the camp and most of the IDPs have no financial means to buy medicines or to go to other places to seek medical assistance.
- IDPs who moved from other camps to Ah Nauk Ywe Camp are in need of shelters. These HHs are temporarily staying in the kitchen facility in the camp or with relatives. The lack of shelters for these families could raise protection concerns such as frictions with other IDPs, SGBV, and exploitation, among others.
- Access to latrines is still challenging for persons with disabilities, elderly, children and pregnant women as these are too high and lack proper handrails. Moreover, latrines are not sex segregated and this could cause incidents of GBV particularly at night.

Other update on activities and issues

SECURITY: tensions between host community and IDPs over the collection of firewood and movement of the IDPs outside of the Camp.

CAMP MANAGEMENT: no updates.

SHELTER: Households who arrived in the camp some months ago are still in need of shelters as they are staying in the kitchen facility in the camp or with relatives in their shelters. It was also reported that some shelters were repaired.

WASH: The IDPs reported the need for hygiene and sanitation activities in the camp. Solidaritès International (SI) is rehabilitating the latrines in the camp as most of them are in very bad condition.

HEALTH: A State run health mobile clinic continues to provide medical services. The IDPs request the opening of a health center or clinic in the camp or that the State run mobile clinic visits the camp more frequently (at least two or three times per week). Reportedly, IDPs are suffering from various types of diseases (TB, diarrhoea, and hypertension) and many of them have no financial means to buy medicines from the pharmacy.

FOOD: food rations were delivered; however, IDPs who moved from other camps to Ah Nauk Ywe Camp have not received any rations in the past months. It was also reported that single headed of household face lots of challenges when feeding their children or dependants as they cannot go fishing or conduct any other livelihood activities that the men usually do.

EDUCATION: school facilities are very limited.

NON-FOOD ITEM:

PROTECTION: protection monitoring activities are ongoing as well as support to the women's group. No reports on any frictions or protection concerns due to the lack of shelters for the IDPs who moved from another camp to Ah Nauk Yew Camp in the last months, however, the Protection Team is monitoring closely their situation in the camp. Access to latrines remains challenging for many persons with disabilities, elderly, children and pregnant women as these are too high, the floor is very slippery, and latrines do not have proper handrails for them. Sanitation/hygiene activities need to be improved as stagnant water in the camp is breeding mosquitos and flies which could transmit various diseases to the IDPs in the camp. Moreover, latrines are not sex segregated and this could cause incidents of GBV, particularly at night.

Moreover, the lack of food rations for the IDPs who moved to the camp in the past months is exposing them to risks such as sexual exploitation, malnutrition, involvement in criminal activities, diseases and even death. In addition to this, the lack of proper health services may cause widespread of diseases among the IDPs and death. Lack of financial means to buy medicines also

Follow up, challenges and advocacy

- DRC Protection Team will follow up with health actors on the provision of health services in the camp.
- DRC Protection
 Team continues to
 follow up and
 advocate for the IDPs
 who still have not
 received any food
 rations in the camp.
 This matter has been
 referred to WFP and
 the PWG in various
 occasions.
- DRC Protection has referred to the PWG the situation of IDPs without shelters in the camp. The Protection Team is following closely on the situation of these families and any possible protection concerns.
- DRC Protection Team will advocate for proper access to latrines by PWSNs in the camp with WASH partners in the camp well as the improvement of the sanitation/hygiene conditions in the camp.

exposes the IDPs to exploitation, SGBV, involvement in criminality or even malnutrition as some of them have to sell part of their food rations to obtain any money to buy medicines for them or their relatives. Self-medication also implies a major health risk for the IDPs.

It was also reported that some IDPs are going outside of the Camp to collect firewood and this is creating tensions with the host community in the nearby village.

In regard to the shelters, women and girls do not feel safe in their shelters as there is not proper separation between shelters or it is in need of maintenance.

NUTRITION:

CHILD PROTECTION: No updates.

Follow up on former issues

The DRC Protection Team followed up on health, and WASH services as well as food distribution but unfortunately there has been no major improvement in the situation.

11. Kyein Ni Pyin IDP Camp

Population: approx. 4,500 IDPs

Highlights

Protection monitoring activities are ongoing as well as support to the women's group.

 Follow challenges advocacy

up,

and

Other update on activities and issues

PROTECTION: protection monitoring activities are ongoing as well as support to the women's group.

It was reported that w<mark>omen and g</mark>irls do not feel comfortable going to the latrines at night as there is not electricity.

WASH: IDPs report almost most latrines are full, concerns over open defecation. Drainage line often filled with sand. Hygiene promotion and regular monitoring. Funding is now in place and WASH activities can commence with a priority of desluging training and equipment provision. A suitable emergency sludge treatment area is required, this will be used to dry the sludge for burning. Additionally a purpose built sludge treatment system will be implemented. There are a lot of latrines that require maintenance and additional are required for the camp extension. The community believe that they have enough water in the ponds to last the dry season.

NTR

NTR

12. Say Tha Mar Gyi Village

Population: approx. 1,050 inhabitants

Good relationship between the villagers and communities living in neighbouring villages. Reportedly, they conduct livelihood activities such as fishing during daytime. Police and army are present in the site and have to be notified about any fishing activities.

 Follow up, challenges and advocacy

Other update on activities and issues

WASH: Some of the hand pumps in the village are in need of repair work and latrines are needed. Open defecation is common in the village.

Health: There are not medical facilities or health center in the village so some of them go to the health center in STMG IDP Camp although there are not enough medicines and medical equipment to treat them. Some others seek assistance from other villagers or buy medicines in a pharmacy. Villagers with sufficient financial means to pay for a proper medical treatment go to Thet Kay Pyin Clinic or Dar Pine Hospital.

Education: there is a primary school in the village, but it lacks materials and benches for the students. Currently, there are only three teachers working in the school and are paid by the community.

Protection: due to lack of latrines in the village, open defecation in nearby fields is common. This is highly risky for women and girls who could be subjected to SGBV.

Food: no distribution of food is taking place in this village.

Livelihoods: The two most common livelihood activities are fishing and farming, however, the villagers make small profit from the selling of fruits and vegetables.

Follow up on former issues

Other update on activities and issues

Protection: It was reported that any tensions between Muslim and Rakhine communities have fully ceased in the village. Nevertheless, the women in the village do not feel safe when they go to collect firewood outside of their village.

Follow up on former issues

NTR

25. Ah Nauk Ywe Village

Population: approx. 2,500 inhabitants

Highlights

Reportedly, there are still tensions between villagers and IDPs from ANY Camp over the use of water sources, fishing activities and firewood collection. Allegedly, villagers from ANY have also frictions with villagers from Sin Ain village as a result of past insecurity incidents.

Other update on activities and issues

WASH: Due to the lack of latrines in the village, open defecation in nearby fields is common, however, the community feel afraid to go to those fields at night due to the presence of snakes and wild animals. It was reported that latrines for each HH are being constructed by an INGO but the villagers are concerned about the quality of such latrines.

HEALTH: There is not a health center in the village. There are irregular one-day visits by a mobile clinic from the Ministry of Health. According to the villagers, it is very hard for them to have medical services and when the mobile clinic goes to ANY, most of the IDPs go to see the doctor so most of the villagers do not have an opportunity to see the doctor or any medical staff from the mobile clinic. In view of the circumstances, villagers who have means of transport or financial means to pay for it, seek medical treatment in Thaechaung village or Sittwe township.

Follow up on former issues

Follow up, challenges and advocacy

26. Sin Aing Village

Population: no updated information

Security: Reportedly, villagers are still afraid to go farming to nearby fields due to insecurity incidents involving Muslims and Rakhine in 2012 and December 2013. According to the villagers, Muslim community members have been seen collecting firewood and fishing in areas close to the village.

Other update on activities and issues

- WASH: the village lacks latrines so as a result, open defectation in nearby fields is common. The villagers reported to being afraid of snakes and other wild animals when going to the fields at night. Water is usually fetched from ponds but in the dry season water sources are limited.
- **HEALTH:** there is not any health center in the village, however, a mobile clinic from the Ministry of Health goes to the village once or twice a month. As a result of the lack of health services, the villagers usually take traditional medicines prescribed by the elderly. For emergencies, they go to Sittwe Hospital but this can only be afforded by those who have financial means to pay for the boat charges.
- **EDUCATION:** there is an elementary school in the village with 206 students and 10 teachers. The villagers ask for support for the construction of proper school facilities for the large number of students and more classes (grade 7 and above).
- **FOOD:** Reportedly, food rations were provided by MRF to all households. These were usually transported by the villagers from Sittwe to the village, so each household had to pay 2000 Kyats for transport. No food rations have been distributed in the recent months.
- **PROTECTION:** Reportedly, during the dry season water sources are quite limited in the village. As a result, the women have to fetch water from a nearby village Baw Taw Li (30 minutes away) and, in order to get to the village, they have to walk through STM IDP Camp. The villagers indicated to be afraid of the Muslims who live in nearby villages or areas.

Follow up on former issues

NTR

27. Kyauk Pyin Seik Village

Population: approx. 600 inhabitants

Follow up, challenges and advocacy

- The Protection Team continues to follow up on possible tensions in the area and concerns by the villagers as a result of the tensions (i.e. limited freedom of movement, threats, etc). Any detailed information will be referred to the PWG.
- The Protection Team will follow up with the Health Cluster on whether the Ministry of Health has sent health staff to this village or not in the past weeks.
- The Protection Team will follow up with MRF on food rations distributions.

An improvement in the relations between Muslims and Rakhine communities in the area was reported. Allegedly, members of the Muslim community are able to work as daily workers in farmlands that belong to Rakhine community.

Follow up on former highlighted issues

WASH: Each HH has their own latrines; however, some of them are in need of repair. During the rainy season, the villagers can fetch water from nearby ponds, however, during the dry season, it is very difficult for them to find water.

Health: there is a health center in the village as well as a traditional midwife. Pregnant women and children have access to vaccination services. In case of an emergency, these are usually referred to Sittwe Hospital.

Education: There is a primary school which was recently renovated by DRC. However, more classrooms are needed as the number of students attending classes is very large.

Other update on activities and issues

It was reported that before the conflict broke out in 2012, the villagers were planting trees and conducting farming activities in fields in a nearby hills. However, this is not the case now as many of the trees have been reportedly chopped by the Muslim community for firewood.

Follow up, challenges and advocacy

 DRC Protection Team continues to monitor the relation between Muslim and Rakhine communities.
