SNFI - Earthquake Response Factsheet # 20 - Syria Hub
Update: April 27th, 2023 | Information valid as of 12:00

Summary Shelter and NFI Response

Tartous & Lattakia:
- Syria Trust, in partnership with Directorate of Social Affairs and Labor in Tartous, launched a clothes distribution before Eid El-Fitr, 18 - 20 April. The clothes were bilateral donations including second-hand and new clothes. More than 50 tons of clothes were sorted, cleaned, and packed. Nine LNGOs participated with Syria Trust in the distribution with 19 distribution points in Lattakia city, rural Qardaha, rural Jablah, and Al-Haffa. 5,054 HHs/ 25,147 individuals benefited from the distribution.
- Additional, notable NFI assistance provided in the period includes; a) UNHCR in partnership with SARC, provided NFI assistance to 5,126 HHs in Lattakia, 1,310 HHs in Tartous and 365 HHs in Idlib, b) UNICEF, in partnership with MOSAIC (LNGO), provided assistance (including children clothing) to all children (under 18) in four CCs in Lattakia (Yousef Naddaf, Jaafar Nasif, Ibrahim Sa’ad, and Sports City), c) SARC in partnership with UAE Red Crescent provided clothes to around 1,000 children in Lattakia through vouchers.
- UNRWA continues to support Palestinian refugees with cash assistance and the agency and aims to introduce new programming to support rental payments.

Aleppo:
- The rapid damage assessment, led by the Operations Room, and supported by shelter sector members (UNHCR, UNDP, and UN-Habitat) is ongoing with 66,000 buildings were structurally assessed and 49,767 considered ‘habitable’.
- The adaptation of Collective Shelters (CSs) process is ongoing with 6 ‘medium term’ CSs handed over to local authorities and 5 CSs where rehabilitation remains ongoing.
- Aleppo Sub-Office facilitated a mission of the Global Shelter Cluster Coordinator and Shelter Sector from the 17th to 20th of April to provide support to UNHCR staff and the shelter sector WG in responding to the humanitarian needs in the aftermath of the earthquakes. The visit included the areas that have been severely affected by the earthquake, collective shelters that have been rehabilitated, and meetings with the Operation Room and shelter sector members.
- The mission was successful and led to agreement of next steps of the emergency response, particularly relevant to cash assistance and how it can better support shelter objectives, support to local organizations assigned for shelter management, information gaps, and how to better interlink shelter and protection interventions.

Homs/ Hama:
- No significant updates.

1 Local authorities shall release the official reports in due course
2 Green indicated no significant damage; yellow: structural damage detected which requires reinforcement and red unrepairable structure.
3 Partners who reported their EQ response to the sector via Activity Info.
