District prioritization

- No data
- Relatively normal situation
- Poor situation
- Serious situation
- Critical situation

Sources:

District prioritization: Shelter/CCCM/NFI Cluster district prioritization had been defined based on cluster assessments reports and UNHCR's IDPs and returnees statistics reports for April 2012 and August 2012 (per district), using the following four cluster indicators:

- No. of persons in need for Shelter assistance (ie. Emergency Shelter, Transitional/upgrading Shelter, Long-term/permanent Shelter, Shelter Grants and etc.) weighted as (1) < 100 as relatively normal (2) < 300 as poor (3) < 500 or Yes (Yes represents areas with shelter needs) as serious (4) ≥ 500 as critical.
- No. of persons in need for NFIs weighted as (1) < 100 as relatively normal (2) < 300 as poor (3) < 500 or Yes (Yes represents areas with NFI needs) as serious (4) ≥ 500 as critical.
- No. of IDPs inside camps/collective centers/outside camps weighted as (1) < 1000 as relatively normal (2) < 3000 as poor (3) < 5000 as serious (4) ≥ 5000 as critical.
- No. of Returnees and potential areas for return weighted as (1) No (No Returnees statistics or not a potential area for return) as no data (2) Yes (Returnees statistics or a potential area for return) as critical.

Each district is given a composite score from 0 to 4 based on evidence collected for each indicator, and the grand total of all indicators are divided by 3 (IDPs and returnees indicators counted as 1 for this purpose). As a result, a ranking of 1 to 4 has been assigned to each district. Districts with no data represent locations where no reliable information and no assessment had been conducted.
