Needs

- **HPC 2022-2023:** MSNA data collection was concluded and shared with the sectors. Ongoing analysis and verification is being undertaken at WoS level, national sectors, and sub-national sectors.
- **Shelter Damage Assessment:** Shelter sector responding to Reach initiative has identified 10 communities in the southern governorates to run damage assessment through UNOSAT.

Coordination

- **SHF 1st Standard Allocation:** The call aimed at responding to two strategic priorities, 1) contribute to food security, 2) strengthen beneficiaries' resilience. Three shelter proposals were submitted under priority#2 with a total value of USD 2M, out of which 2 projects passed the vetting with the value of USD 0.5 M.
- **Syria Environmental Profile:** The Shelter Sector supported by GSC has identified the energy and construction materials/methods as the main areas for Syria Environmental Profile. Thorough workplan is being finalized with coordination with ER sector.
- **AAP WG:** SNFI sector will be represented in the new working group specialized in "Accountability to Affected Population". The representative will work on enhancing the tools and mechanisms ensuring AAP in SNFI response.
- **ECHO HIP Consultation:** SNFI sector at WoS level after extensive internal consultations carried out a meeting with ECHO team on the existing challenges and way forward for 2023.

RESPONSE

- **HH Solar Energy:** TWiG reached the final draft of the technical guidelines for this new activity and shared it with sector partners and line Ministry for endorsement.
- **NES tents:** Significant gap in family tents in the last resort sites of NES is being foreseen for the last quarter of 2022 and for 2023. Shelter sector launched advocacy efforts with potential funding agencies at local, regional, and global level to secure needed funding or tents specially with the approaching winter.

GAPS / CHALLENGES

- Significant economic decline coupled with price fluctuation has resulted in a decreasing scope and/or target of shelter projects.
- Diminishing coping capacities of both IDPs and host communities as well as limited financial resources of government and sector partners are leading to an increase in shelter needs.
- Multi-layered processes continue for obtaining official approval for shelter projects and associated beneficiary lists.
- Opportunities for systematic field-based data collection remain limited due to access restrictions, resulting in incomplete needs analysis in some areas.
