

## KEY MESSAGE

Winterization provides **life-saving assistance** to the most vulnerable individuals, preventing mortalities from cold related sicknesses especially for children and the elderly.

A timely winterization response will **mitigate protection risks** (especially for the elderly, women and children) and reduce negative coping mechanisms.

The joint winterization strategy calls for an **integrated response** with Food, WASH, Health and Protection clusters and advocates for the use of **standardized assistance packages**.

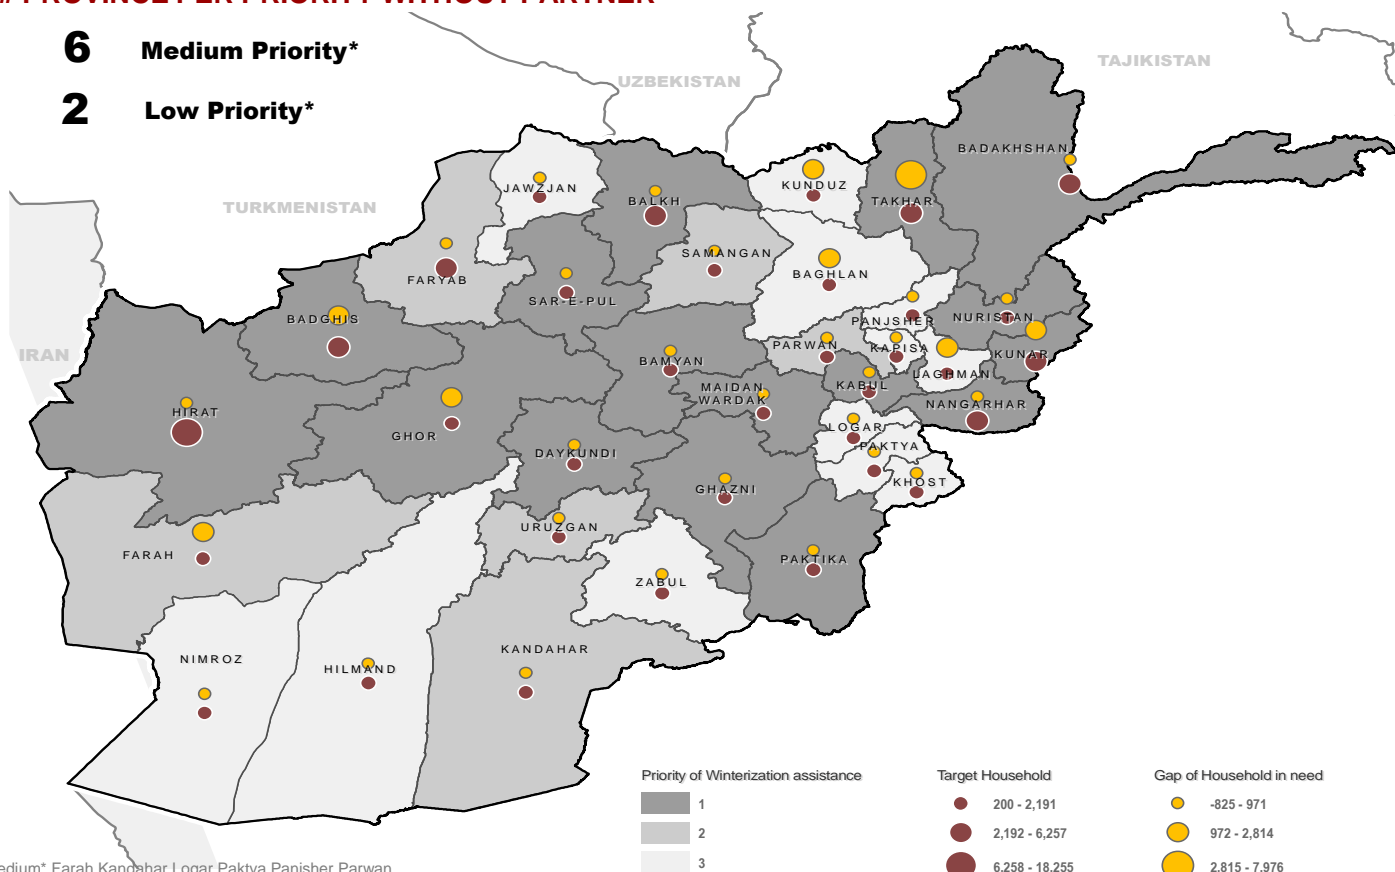

Humanitarian community to contribute to research on **alternate sustainable winterization** solutions for protracted IDPs that address recurrent seasonal changes.

## # PROVINCE PER PRIORITY WITHOUT PARTNER

**6 Medium Priority\***

**2 Low Priority\***

Medium\* Farah, Kandahar, Logar, Paktya, Panjsher, Parwan

Low\* Nimroz, Zabul

**95,350**

# of projected household in need of winterization response
