

SUBVENTIONS TO LOCAL ADMINISTRATIONS

With reference to the call for proposal to local administrations launched on January 24, 2019, locations and activities that will receive funds this year have been identified. As a result of MTOT's submission, on July 5, 2019, the Government made a decision to allocate subventions from the state budget to local budgets in the amount of almost 19 mln UAH (750,000 USD).

The subvention funds are planned to be used for the purchase of 59 apartments (in Mariupol, Sloviansk, Berdyansk), the reconstruction of a two-storey building (in Troitske, Kharkiv region) and the purchase of 4 sets of equipment for registration and issuance of contactless electronic passports for Ukrainian citizens and foreign passports (in territorial hromada of Zvanivka, Kostyantynivka, Kurakhovo, Sievierodonetsk).

Procedure for the establishment of housing stock for temporary residence of IDPs and the **Procedure for provision of temporary use of residential premises** from the housing stock for temporary residence of IDPs. On the initiative of MTOT, on June 26, 2019, the GoU introduced a mechanism for the provision of temporary residence accommodation for IDPs. The selection of the beneficiaries will be based on vulnerability criteria. This will allow an effective use of the subventions and compliance with the IDPs' rights to temporary housing.

IDPS IN COLLECTIVE CENTRES

Based on the data collected by local administrations, currently in Ukraine there are 189 Collective Centres, with an overall capacity of 13,596 individuals. The number of IDPs currently residing in the Collective Centres is 7,594; this figure represents 0,55% of the total amount of IDPs officially registered in the oblasts where the Collective Centres are located.

The most populated types of Collective Centres, in which IDPs are currently accommodated, are modular towns, dormitories and sanatoriums.
