

Distribution of SOKs to vulnerable IDPs in Falluja, Anbar.

NEEDS ANALYSIS

As per the IOM-led DTM report, **1.41 million IDPs** and **4.6 million Returnees** have been identified across the country, from January 2014 to 31st December 2019.

The number of IDPs continues to decrease (from 2.6 million as of Dec.2017 to 1.41 million as of Dec.2019); while the numbers of returnees has increased (from 3.2 million, end of Dec.2017 to 4.6 million, end of Dec.2019).

- 24% of the 1.41 million IDPs are in camps, while 68% are currently in private settings (in rented accommodation or with host families); 8% remain in critical shelter arrangements (unfinished/abandoned building; school/religious buildings and informal settlements).
- 95% of the returnees are in their habitual residence, 2% in Private Settings while 3% live in critical shelter arrangement such as informal settlements, unfinished and abandoned buildings, schools, religious structures.

CURRENT CLUSTER INTERVENTIONS (1st Jan. – 29th Feb. 2020)

- Out of the overall SNFI Cluster target of 524,750 individuals, **44,302** have been assisted with NFI kits; **4,727** have benefited from shelter interventions. The coverage for NFI kits stands at **8%** of the target; and the coverage for shelter stands at **1%** of the target:
 - 34,305** people living in camps and informal settlements have been reached with NFI kits; **1,278** people have been provided with emergency shelter interventions.
 - 199** returnees have been reached with NFI kits; **1,025** people were assisted with either emergency repairs of War Damaged Shelter (WDS) or provided with Sealing-off Kits.
 - 352,486** individuals have been assisted with winter support during the 2019 – 2020 season. **95%** of the assistance was done through the distribution of **winter cash** to cover people's needs in the most effective and efficient way.
 - 8** cluster partners had covered seasonal needs with winter items and children's' clothing. Additionally, humanitarian and government partners have replaced **21,000** tents from Nov 2019 until Feb 2020.

GAPS / Constraints and Key Critical Issues

- The introduction of restrictive measures against public gatherings and the spread of the **COVID-19** pandemic, many partners are facing difficulties in moving staff and materials across governorate checkpoints and general bans on movement. The situation impacts severely operational capacity and has caused **significant delays on all ongoing and planned projects**.
- As part of the efforts to prepare IDPs in camps for the winter season, Shelter Cluster monitored **kerosene distribution** by MoMD: **33 out of the 44 formal camps** in Iraq have received kerosene even though volumes per family vary greatly and in many camps were seen as insufficient.
