98,936²

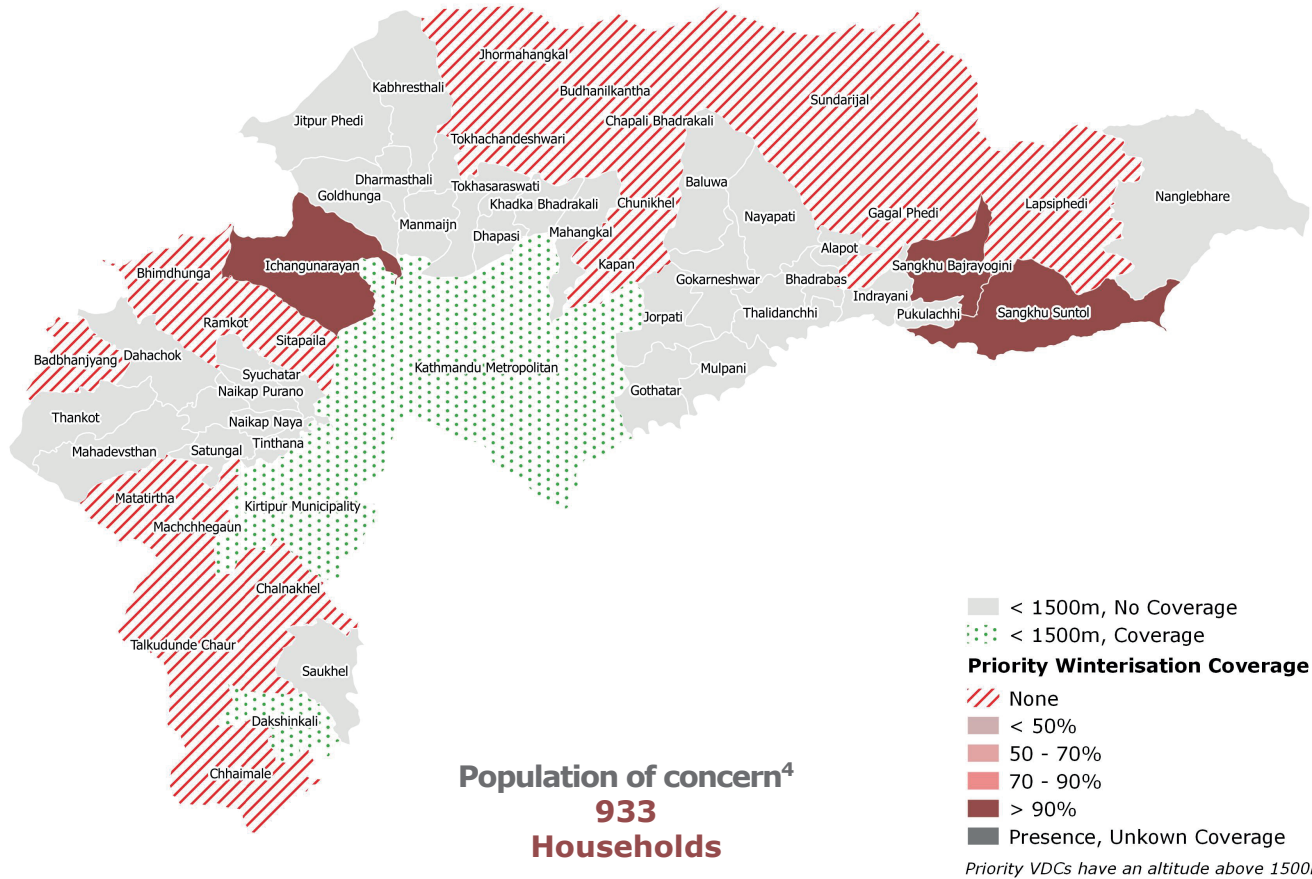

Houses were damaged by the Earthquake

6%³

of the families live in Temporary Shelter

1,999³

HHs live in t-shelter above 1,500m

Current Situation

- Distribution of NPR 10,000 by NRCS to 7,000 HHs is in plan which will be started in the coming week.
- OXFAM has planned to distribute winter kit to 251 HHs. The distribution has been delayed due to various reasons.
- No completed or ongoing activities have been reported in Kathmandu District.

Background

Being the most urban city of Nepal, KTM has been least assisted despite the ease of access to distribution materials and facilities. In the initial emergency phase, the most widely distributed items were tarpaulins whereas CGI (the largest need) and Cash distributions were very limited.

For more information, contact our district focal point: Lajana Manandhar (Lumanti), lajana.manandhar@gmail.com, 9851035594

¹ according to 2011 Census

² as per DRR Portal damage figures

³ according to the Shelter Recovery Monitoring Assessment - October 2015

⁴ households living in the areas marked in red stripes. These are the households living in t-shelter above 1500m.

The coverage is calculated against damage figures gathered at district level (coverage percentage=winterisation plan/number of damaged houses)
