

NEED ANALYSIS

- ✓ The crisis that occurred in Mali in 2012 led to displacement in high numbers, both inside the country and in the sub-region, 350,000 persons were internally displaced, while 175,000 were refugees.
- ✓ Even if the security situation is still volatile, some Malian refugees have been coming back home since 2013. The government of Mali estimates that some 40,000 Malian refugees have returned, while UNHCR had verified more than 17,500 as of the end of 2015. According to the January DTM report there are nearly 50,000 persons still internally displaced in Mali.
- ✓ In The HRP 2016 (Humanitarian response plan), the shelter cluster estimates, 450.000 people in NFI needs, and 167.000 people need of shelter assistance.
- ✓ In 2016, the cluster target 91,000 persons to be assisted with NFI and 17.000 vulnerable persons will receive shelter assistance.

RESPONSE

The cluster response is based on Vulnerability-based beneficiary targeting that considers needs of all crises-affected populations and focuses on four main activities:

- ✓ **NFI** : NFI distribution for vulnerable people living in return area,
- ✓ **Permanent shelter**: Construction or rehabilitation of damaged houses for people who return in their area of origin.
- ✓ **Cash**: Conditional cash transfer for house rent,
- ✓ **Nomadic shelter**: provide traditional shelter and construction tools to nomadic population.

In 2015, the Cluster partners (including ICRC) have assisted over 110,658 people with NFI and have assisted 12,420 with shelter assistance as follow:

- 4,530 persons have assisted with traditional houses/nomadic,
- 1,200 persons assisted with cash transfer for house rent,
- 6,690 assisted with permanent shelters.

GAPS / CHALLENGES

- ✓ Comparing the target and the population in need , only 20% of vulnerable people will be reached,
- ✓ Limited number of active shelter actors,
- ✓ Humanitarian access still remains a challenge in some areas, with constant attack on humanitarian workers,
- ✓ Lack of regular shelter need assessment.
