Partner updates and Action Items from this meeting

Partner	Discussion / Key Points / Actions
<u>ERF (Emergency Response Framework)</u>	The ERF is intended for all sectors during emergencies, starting from week one of an emergency. The Final draft will be shared with partners after completion by OCHA . The ERF will provide guidance on how to carry on credible assessments, specially multi sectorial.as one partner is not enough to conduct an assessment. The ERF also will define what items will be issued or provided to the beneficiaries as first response (Communal shelters, food, etc.)
<u>CHF 2016</u>	<p>A Training session will be conducted by OCHA on the 8th of march to CHF 2016 Eligible partners. The sessions will provide the implementing partners with background information on the 2016 SHF allocation process and practical/operational guidance on how to submit project Concept Notes using the SHF Grant Management System.</p> <p>Eligible partners are kindly requested to register a maximum of two persons per agency across all sectors due to the limited capacity.</p>
<u>Blue Nile Assessment mission</u>	The mission's TOR is shared by OCHA, the logistical arrangements are in place to start the mission in the beginning of march. The Joint Assessment mission intends to visit 6 localities in blue Nile to assess the IDPs needs
<u>UPO</u>	UPO is working in three location for the ESNFI Sector; In Buram, Salam and Nitega Localities, focusing on environmentally friendly shelters and SSB transitional shelters, 800 People were trained on SSB production and 35,000 Blocks were produced. UPO also provided training in fuel efficient stove(Presentation by Mr Ibrahim Modi after the Updates)
<u>TGH</u>	<p>In Umdukhon and Bindisi Areas. A recent assessment verified 108 households newly displaced from Fires in need of NFIs, assisted from the Common pipeline.</p> <p>In addition to the pending renewal caseload in Muraddaf, around 1200 HH requiring NFI assistance. The assessment findings will be shared via email</p>
<u>AORD</u>	The Recent events in Blue Nile state caused displacement from areas like Wadabuk to Tadamun locality. There is an assessment planned for the newly displaced, with participation from Local government, UN and NGOs The Report will be shared once finalized.
<u>RODHA</u>	Assessment is on-going in south and west kordofan for the south Sudan refugees , further details will be shared with the sector (or RMS)
<u>AOB</u>	Lorena raised a question about El Nino and the composition of the NFI kit , there was an interest in modifying the NFI Kit to accommodate shelter components such as bamboo sticks, ropes, etc. and requested a separate meeting to explore the possibility.
