

Rakhine

Kachin/Northern Shan

## NEED ANALYSIS

- In **Rakhine**, approximately 120,789 people remain displaced across 36 camps or camp-like settings. In **Kachin/Northern Shan**, over 99,970 IDPs are mostly dispersed over 178 camps or camp-like settings but around 10,000 with host families.

## RESPONSE

- Rakhine:** Emergency shelter response in 2012/13 and temporary shelter response in 2013 for 140,000 IDPs. Care and maintenance in 2014/15. Owner-driven housing solutions in places of origin/relocation in 2015 for 26,800 IDPs, reducing number of camps from 67 to 36. Government plan to assist with individual housing in 2016, which combined with 2015 progress, could have benefitted in total 40,000-50,000 IDPs, stalled. This meant major repair/maintenance of temporary shelters in 2016-2017. 12 month camp profiling covering Sittwe Township camps completed June/July 2017.
- Kachin/NS:** Main contribution was local-faith based NGOs in 2011/12. Cluster focus has been to enhance technical capacity, including greater awareness of and adherence to minimum standards. Five rounds of camp profiling covering 130 sites completed. NFI coverage only needed for vulnerable IDPs, new displacement or winter items.

## GAPS / CHALLENGES

- Prone to natural disasters, **Rakhine** remains potentially volatile context where underlying social, political and economic causes cannot be solved completely with humanitarian response. Solutions that avoid ethnic segregation and support communities to become self-reliant are needed, however, elections, lengthy period of transition and major instability in northern Rakhine State is inhibiting long-term planning and perpetual cycle of repairing and replacing temporary shelters.
- Belated international engagement in **Kachin/NS** required huge information gathering/operational undertaking to address shortfalls. Protracted nature means perpetual cycle of repairing and replacing temporary shelters. Significant variations for quality and quantity of assistance provided partly due to very limited access to non-government controlled areas.

## KEY DATES – Activated in January 2013

### Rakhine

**2012:** Violence and burning of houses in June and October lead to displacement of 140,000 people.

**2014:** Suspension of humanitarian activities due to violence and ransacking of 33 UN and INGO offices.

**2015:** Cyclone Komen and flooding in August caused damage to over 13,000 houses.

**2016-17:** Violence/displacement in northern Rakhine State.

**2017:** Cyclone Mora causes serious damage to temporary shelters in central Rakhine State.

### Kachin/Northern Shan

**2011/12:** Conflict in Kachin lead to tens of thousands displaced

**2013:** Conflict spreads to Northern Shan State.

**2014-17:** Conflict continues, with increasing severity in some areas, notably northern Shan.

(includes NFI needs but **excludes** CCCM and Cyclone Mora needs)

# Kachin/Northern Shan (Myanmar) June 2017

## NEED ANALYSIS

- Over 99,000 IDPs dispersed over 170 IDP camps or camp-like settings.
- Approximately 50% of camps in non-Government controlled areas (NGCA) with very limited access.

## RESPONSE

- 2011-2012 *main* contribution was local-faith based NGOs.
- Churches & private organizations have also built shelters.
- Enhance technical capacity, including greater awareness of & adherence to minimum standards.
- Where possible, although numbers very modest, pursue individual housing solutions.
- Five rounds of camp profiling, covering over 130 sites each occasion (see KEY LINKS). Sixth underway in May/June 2017.
- NFI coverage *only* needed for vulnerable IDPs, new displacement or winter items.

## GAPS / CHALLENGES

- Belated engagement from international community meant lack of basic data, technical expertise and financial resources. Many shelters built 2011-2012 did *not* meet minimum standards in terms of size, structural safety & durability. Required huge information gathering & operational undertaking to address shortfalls.
- Protracted nature means perpetual cycle of replacing/upgrading/repairing temporary shelters that are sub-standard/reaching end of lifespan.
- Limited to zero access to NGCA/half the IDP population hence significant variations for quality/quantity of the assistance provided.
- Major funding shortfall of +US\$3.0 million needed for 3,200 units at a cost of US\$2.3 million. Plus, need to repair and maintain 1,000+ units with 50% in need of major renovation.** Some newly displaced IDPs living in makeshift shelters outside of existing camps.

## KEY DATES – Activated January 2013

**2011-2012:** Conflict in Kachin State leads to tens of thousands displaced

**2013:** Conflict spreads to Shan State

**2014-2017:** Conflict continues, with increasing severity in some areas, notably northern Shan.

## BACKGROUND

Conflict in Kachin broke out mid-2011. Extensive damage done to livelihoods/infrastructure. Resurgence of conflict in late 2012 triggered displacement of several thousand additional IDPs. Peace talks in February 2013 calmed the flow of new IDPs yet small pockets of displacement occurred in 2014-2015. Most IDPs remain reticent to return to their homes due to continuous tensions, lack of livelihood opportunities & possible landmines in their places of origin.
