### KEY FACTS

At the end of Q1, the Shelter Cluster response was **12%** funded. **4/15** partners and **5/24** projects included in the HRP have received partial funding.

### West Bank/East Jerusalem

#### Demolition response

Demolitions (Jan-April 2016):	596	of which <b>246</b> are residential displacing <b>864</b> individuals, including <b>424</b> children
Donor-funded structures:	168	of which <b>91</b> are residential

#### During the first four months of 2016...

**85** communities have been impacted by demolition, affecting **2,465** people.

In **9 major** incidents, most or all of the structures in the community were destroyed.

**28%** of structures demolished in 2016 were previously affected by demolition.

The number of residential structures demolished in 2016 is **123%** of that in 2015, reflecting a **265%** increase in the monthly average in demolitions of residential structures (**62** in 2016 vs **17** in 2015). The **168** donor-funded structures demolished is **150%** of those in 2015.

Increasing risks face deliverers and receivers of aid due to **obstruction, confiscation or detention**. There is an urgent need to invest in increasing community resilience and address vulnerabilities that contribute to the **likelihood of displacement**.

### FUNDING

### IDP response

Over **1,000** units were completed between March and April. However, over **13,300** families (about 70,000 individuals) remain displaced as a result of the 2014 conflict.

**1,081** non-refugee families received **cash for rent** from Jan-Jun 2016 – however there is an **urgent gap in assistance** for over **9,000** IDP families who have not received any support this year so far due to lack of funding.

### GRM update

Since September 2014, **1.24m** tonnes of construction materials have entered Gaza through the GRM. No additional participants were added to the Shelter or Finishing Stream in April, but some material continued to be purchased through the Shelter Stream for ongoing repairs. There are **13,757** beneficiaries in the Residential Stream, 4,982 of which (**36%**) are for reconstruction.

**20,265** tonnes of cement entered for International projects in April, however **zero** cement entered for private sector.

**50,000** beneficiaries still have allocated quantities of cement to be procured for repair and reconstruction as well as **5,000** beneficiaries for new construction. Further detailed information is available at [grm.report/#](http://grm.report/#)
