Update on HRP 2018: method, targets and budget

- The number of people targeted increasing from 2.2 million in 2017 to 3 million targeted for assistance in 2018 of whom 2.6 million are in acute needs.
- The methodology for determining the overall target for the Cluster was determined AS follow: 100% of People in need in acute severity locations and 18% in medium severity locations that were captured in 2018 HNO. The calculation of targets for each activity was based on the Cluster overall total targeted beneficiaries, HNO severity indicators, locations with high needs and minimal implementation in 2017, and other sources such as the Cluster database of IDPs Hosting Sites.
- Total Cluster requirement is \$195 million (USD).

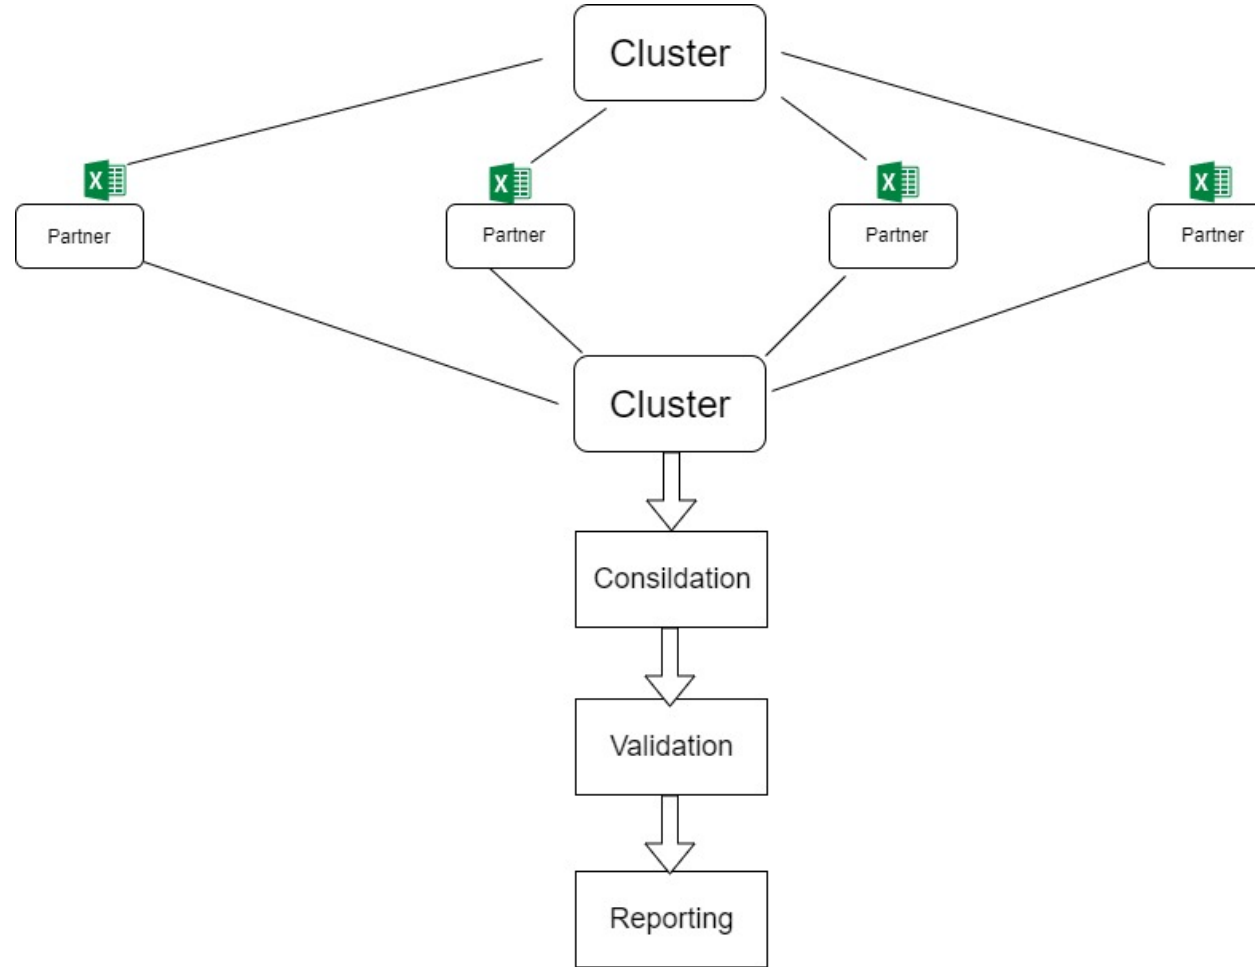

Update on winterization support

- Review the progress on the implementation of the winterization plan Oct 2017 – Feb 2018 – (Review the hard-copy of the matrix that will be circulated at the beginning of the meeting)
- Note: No further distributions of winter support after February 2018.

Introducing ActivityInfo

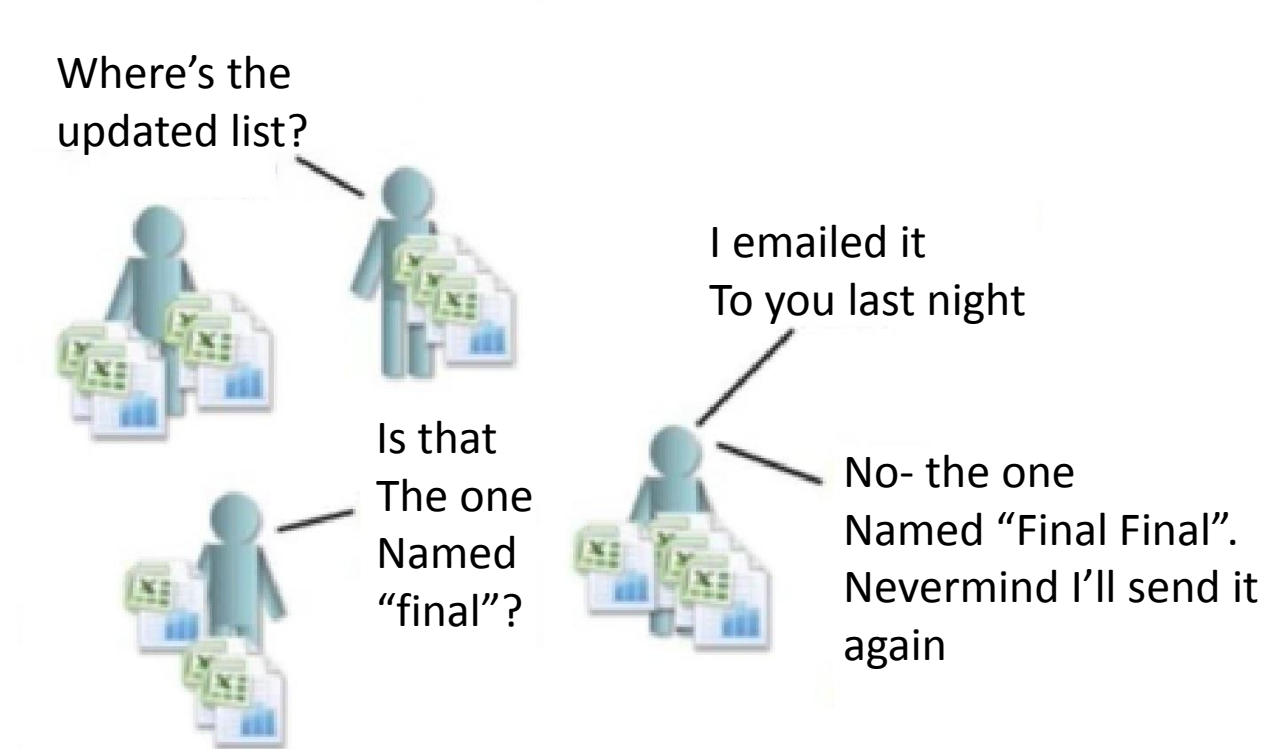

Current Workflow

Problem: Reporting Issues

- Spends time on consolidation and validation
- Missing Information
- Reporting time lapse
- Not all partners reporting
- Multiple formats
- Week analysis
