Shelter/NFI/CCCM Cluster IDP Hosting Site Capacity Response Strategy:

- Prioritize IDP Sites and advocate for Inter Cluster support for Site Coordination & Site Focal Points (SFP) support.

- Site Management learning gap analysis to prioritize capacity building support - SFP (ExU) and NNGOs

- Advocacy with CCCM Global Partners (UNHCR, NRC, DRC, ACTED, IOM) to deploy qualified CCCM staff as resource.

- Engage with OCHA YHPF and other funding instruments to be more flexible on the selection of Partners, especially NNGOs. Promote CCCM integrated approaches in the YHPF 2017 second allocation and the YHRP/HNO 2018 to get political buy in and visibility.

- Advocate with Donor Organizations (ECHO/DFID) to fund CCCM expert positions in Partner organizations - focus on international staff in national NGO's to build organizational capacity and resource for Shelter/NFI/CCCM Cluster.

- Provide Site Management and coordination support to Dahadh IDP spontaneous settlement in Khamir district, Amarn Governorate to demonstrate the effectiveness of the concept and identify lessons learned.

- Communications Strategy? – Cluster wide but focusing on IDP hosting Sites?
