### NEED ANALYSIS

- 2021 HNO: 13.4 million people are estimated to be in need of humanitarian assistance with 4.7 million people in need of NFI support; an 8.5% increase from 2020

### RESPONSE

- Strategy:** NFI sector updated its annual strategy to reflect the recent challenges related to the economic situation, COVID-19, expected return and the need for a holistic response.
- Guidelines:** The sector developed COVID-19 guidelines related to distributions and assessments, these were endorsed by the health sector.
- As of Q1 2021, over 2 Million individuals were reached with core NFIs and, 823,470 with winter and supplemental NFIs.
- 2021 HRP:** NFI partners have received regular updates on the 2021 HRP with needed guidance to support 2021 planning.
- The sector projected the need for 5% increase in the budget from 2020.
- Winter update:** NFI partners completed the winter response: The total target for 2020-2021 winter was 1.4 million, and 12 partners reached over 831,430 or 59% of the target.

### GAPS / CHALLENGES

- Significant increase in prices is posing challenges to partners particularly in procuring items.
- Diminishing coping capacities of both IDPs and host communities as well as limited financial resources of sector partners are leading to an increase in needs.
- Based on Post Distribution Monitoring, beneficiaries have reported concerns over the quality of items and delayed distribution of seasonal items.
- Access and safety continue to be challenges in some parts of the country as well as partner capacity and funding.
- Opportunities for systematic field-based data collection remain limited, resulting in incomplete needs analysis in some areas.
