

# Self-regulation by Residents

- Encourage and support residents to develop basic regulations and house rules which are in line with human rights principles and Yemeni cultural norms
- Facilitate the formation of different committees
- Provide trainings, sensitization meetings and workshops

# Host community

- Manage tensions between host communities and residents living in IDP Hosting Sites
- Provide the affected host community with between 10% - 30% of the amount of assistance offered to the IDP communities
- Facilitate a smooth transition and integration into the host community for new residents
- Local government / authorities will be involved and able to access the IDP Hosting Sites through the committees if any dispute arises and be made aware of any relocations to support the movement of residents when needed

# Engagement, Participation and Community Involvement Minimal Check List for Site Management
