Naitasiri	1483
Ba	3965
Tavua	1791
Ra	4742
Lautoka	1659
Tailevu	1437
TOTAL	23388

Phase 2: Dec. 16 – Jan 2017

Allocation \$16.7 million FJD

Stats by Type of Damage:	
Type	Tailevu
Informal (\$1500)	105
Partial Roofing (\$1500)	1231
Severe Roofing (\$3000)	660
Total Damage (\$7000)	1804
Total	3800

Stats by Center:	
District	No. Assisted
Tailevu	1319
Naitasiri	489
Rakiraki	1992
Total	3800

Phase 1 + Phase 2 = 27,188HH

Refund Paid out

\$1.74 million FJD

District	No. of recipients
Lautoka	41
Tailevu	8
Naitasiri	10
Tavua	186
Ba	258
Cakaudrove	2
Ra	285
Maritime	26
Taveuni	7
Total	823

HfH Initiative

Gaps (MoWC&PA from NDMO)

Western Division	No.
Nadroga	574
Malolo	42
Nadi	720
Total	1336
Central Division	No.
Rewa	233
Namosi	81
Serua	61
Total	375
Northern Division	No.
Seaqqa	31
Total	31

**Gap in Total: 1742 HH
in the orange zone**

Information source: MoWC&PA, Feb 2017

Preparedness: Information Management

- TC forecast
- Pacific Stock preposition mapping
- 3Ws (who, what, where)

[**sheltercluster.org/pacific**](https://sheltercluster.org/pacific)

[**sheltercluster.org/pacific/fiji**](https://sheltercluster.org/pacific/fiji)

Preparedness: Community messaging

- Ministry of Industry Trade and Tourism, is printing 1000 booklet for distribution via local newspaper
- Other medium to reach out to communities?
e.g. local newspaper, broadcast, social media, inter-cluster?

Build Back Safer Carpentry Trainings

- Training of trainers developed during TC Winston Response, currently being implemented by Habitat for Humanity Fiji.
- Rural Housing (NDMO) planning carpenter training in 4 divisions. 2 week training, FNU accredited.
- Can these trainings/curricula be consolidated?
Ways forward?

Damage level guideline

- Developed by Ministry of Economy for the Help for Homes initiative for TC Winston response
- Household level self-assessment tool

It is important that households accurately report the level of damage sustained in Cyclone Winston in order to receive the correct amount of funds on the electronic cards. Below, please find examples of damaged homes and the level of assistance that they are eligible to receive.

Homes that have Partial Roofing Damage will receive \$1500

Homes that have Complete Roofing Damage will receive \$3000

Homes that are fully destroyed will receive \$7000

Anyone found to have provided false information to Government in the registration process will be fined up to \$20,000 and can face prison sentences of up to 10 years. Spot checks will be conducted by the Ministry of Finance audit teams to verify claims and ensure that benefits are only received by Fijians that meet the criteria for the Help for Homes initiative.

Development of damage level guideline

Hazard Type/level of damage	Cyclone	Storm Surge	Flood	Tsunami	Earth quake
Partial roofing damage (minor damage)		?	?	?	?
Complete Roofing damage (major damage)		?	?	?	?
Fully Destroyed		?	?	?	?

Standardization of emergency shelter/NFI relief package

- Currently there is no standard emergency shelter package.
- Has been highlighted by shelter cluster partners as an opportunity for improvement
- Shelter Cluster lead recommends development of standard package in order to enhance effectiveness, and timeliness of response and to ensure all affected population receive appropriate level of assistance in accordance with minimum standards.
- Early recovery considered from day one.

Ways forward?

- Consolidation of trainings
- Damage level guideline
- Standardization of emergency shelter/NFI relief package

Prioritisation, Partner involvement, timeframe
