

## Shelter/NFI Situation

Displacements continued in North West Syria (NWS) in December: the CCCM Cluster recorded 367,026 IDP movements, including 73,297 displacements towards Dana subdistrict. This is the largest number of displacements recorded in 2019.

Dropping temperatures have intensified the need for fuel. Unfortunately, it is increasingly challenging to get fuel for its unavailability and rising prices. The devaluation of the Syrian Pounds is also affecting the purchasing power of the affected population. The situation is particularly difficult for the IDPs living in substandard buildings, tents and makeshift shelters.

## SNFI Response

In December, most of the SNFI Cluster members were extremely active having to respond to the ongoing emergency in addition to providing winter assistance for protracted IDPs. SNFI Cluster members assisted 455,755 people (96,555 with shelter and 359,220 with NFI assistance). This is a sharp increase in people reached with shelter and/or NFI assistance compared to November. On average, 178,000 people per month received shelter and/or NFI assistance in 2019, marking a 39% increase from the previous year. The objective of the Cluster was to reach the largest number of people in need of winterization before the end of December. By then, 464,322 people in need were assisted with winter assistance, almost double than in the previous winter.

The Cluster coordination team worked with the Cash Working Group and SCHF on the third reserve allocation. USD 4.6 Million have been allocated to the SNFI Cluster:

### USD 2 Million to replenish the contingency stock

- 6,000 NFI kits to reach 6,000 households
- 30,000 plastic sheeting to reach 15,000 households

### USD 2.6 Million for NFI / Winterization (multipurpose cash)

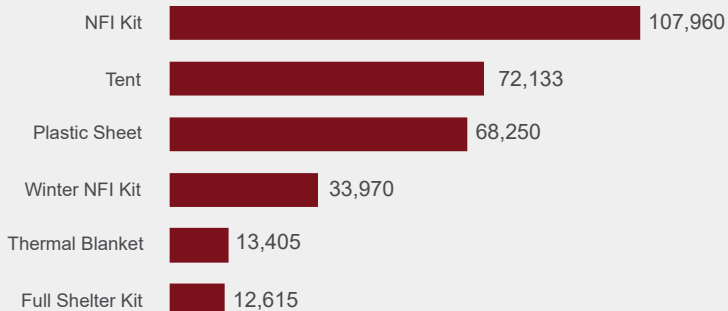

- 100,000 people targeted (17,750 households)

## Preparedness plan and Gaps

The SNFI Cluster has kept NFI stock to assist more than 187,000 people and tents/shelter kits for 110,000 people who might be affected by displacement or floods.

The SNFI Cluster is advocating for additional funding to replace or upgrade damaged tents and to respond to the ongoing emergency. USD 15 Million is needed to assist the new IDPs with NFI and shelter assistance.

### #Individuals can be reached by stock reported available by December 2019

**Lead Agency:** UNHCR  
**Contact / feedback:**  
coord.turkey@sheltercluster.org

\* Compared to the same period of last year (Jan - Dec 2018), in 2019 the response increased by 34%.

## Key progress indicators

### Turkey Hub - Cumulative (Jan - Dec)

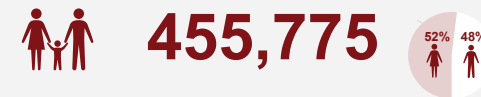

### Total individuals reached by NFI - Per month

\*1 Shelter Assistance includes: Shelter Rehab, Seasonal Shelter assistance and Transitional shelter assistance

\*2 Provision of Emergency Shelter includes distribution of Shelter Kits or Single Items like Plastic Sheets for quick fixing as well as Tent installation

## Monthly Achievements

People reached from Turkey hub in December

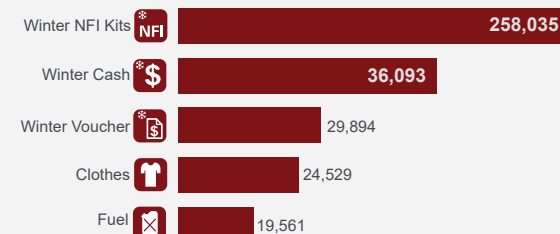

98,030

Beneficiaries reached with cash / voucher

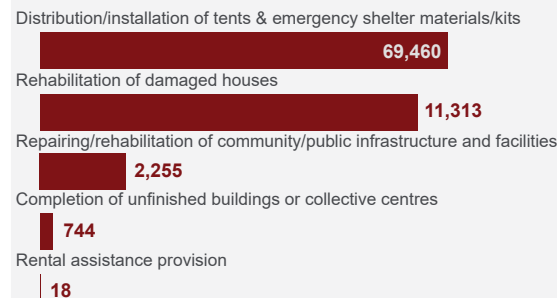

- 39 Members reported completed activities  
14 Members reported no activities  
30 Members implemented NFI activities  
20 Members implemented Shelter activities

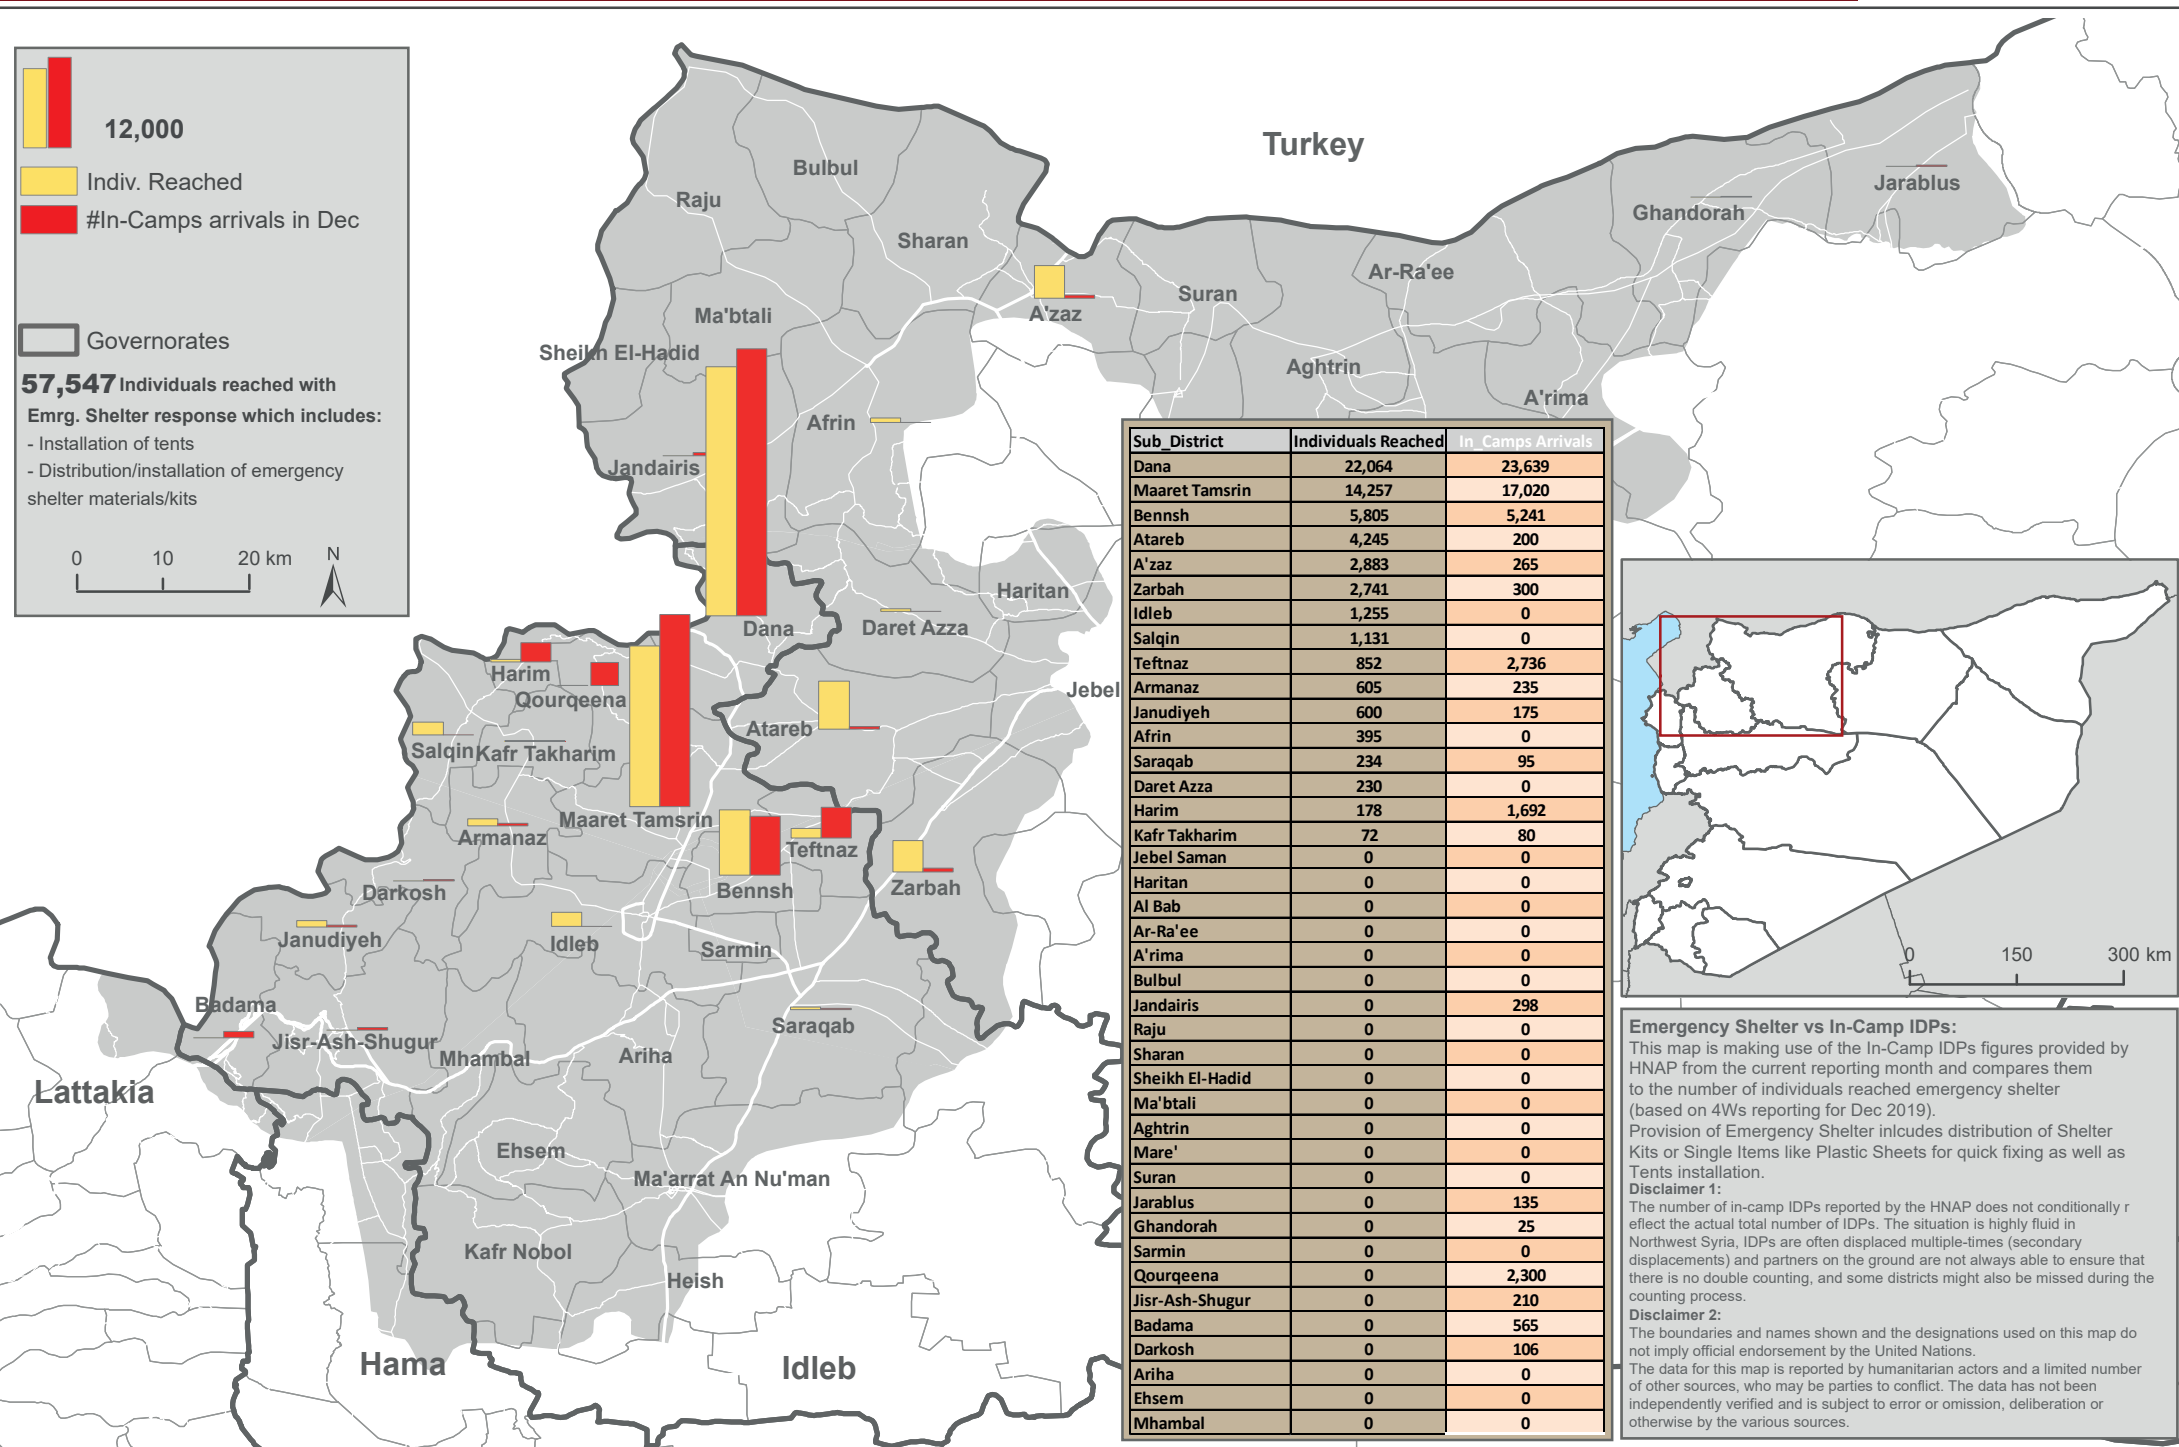

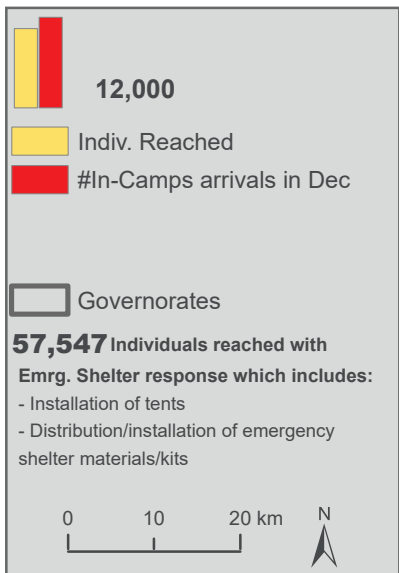

- 36 Sub-districts reached in 2 governorates  
33 Sub-districts reached with NFI activities  
20 Sub-districts reached with Shelter activities

## NFI: Top# Individuals reached by Items/Modalities

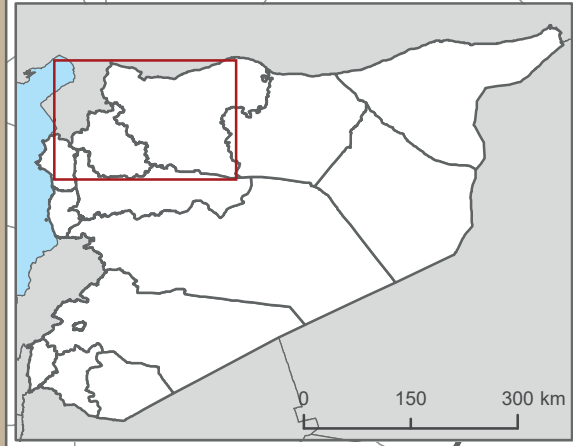

## Shelter: Beneficiaries reached by Sub-Activity

**Emergency Shelter vs In-Camp IDPs:**  
This map is making use of the In-Camp IDPs figures provided by HNAP from the current reporting month and compares them to the number of individuals reached emergency shelter (based on 4Ws reporting for Dec 2019). Provision of Emergency Shelter includes distribution of Shelter Kits or Single Items like Plastic Sheets for quick fixing as well as Tents installation.

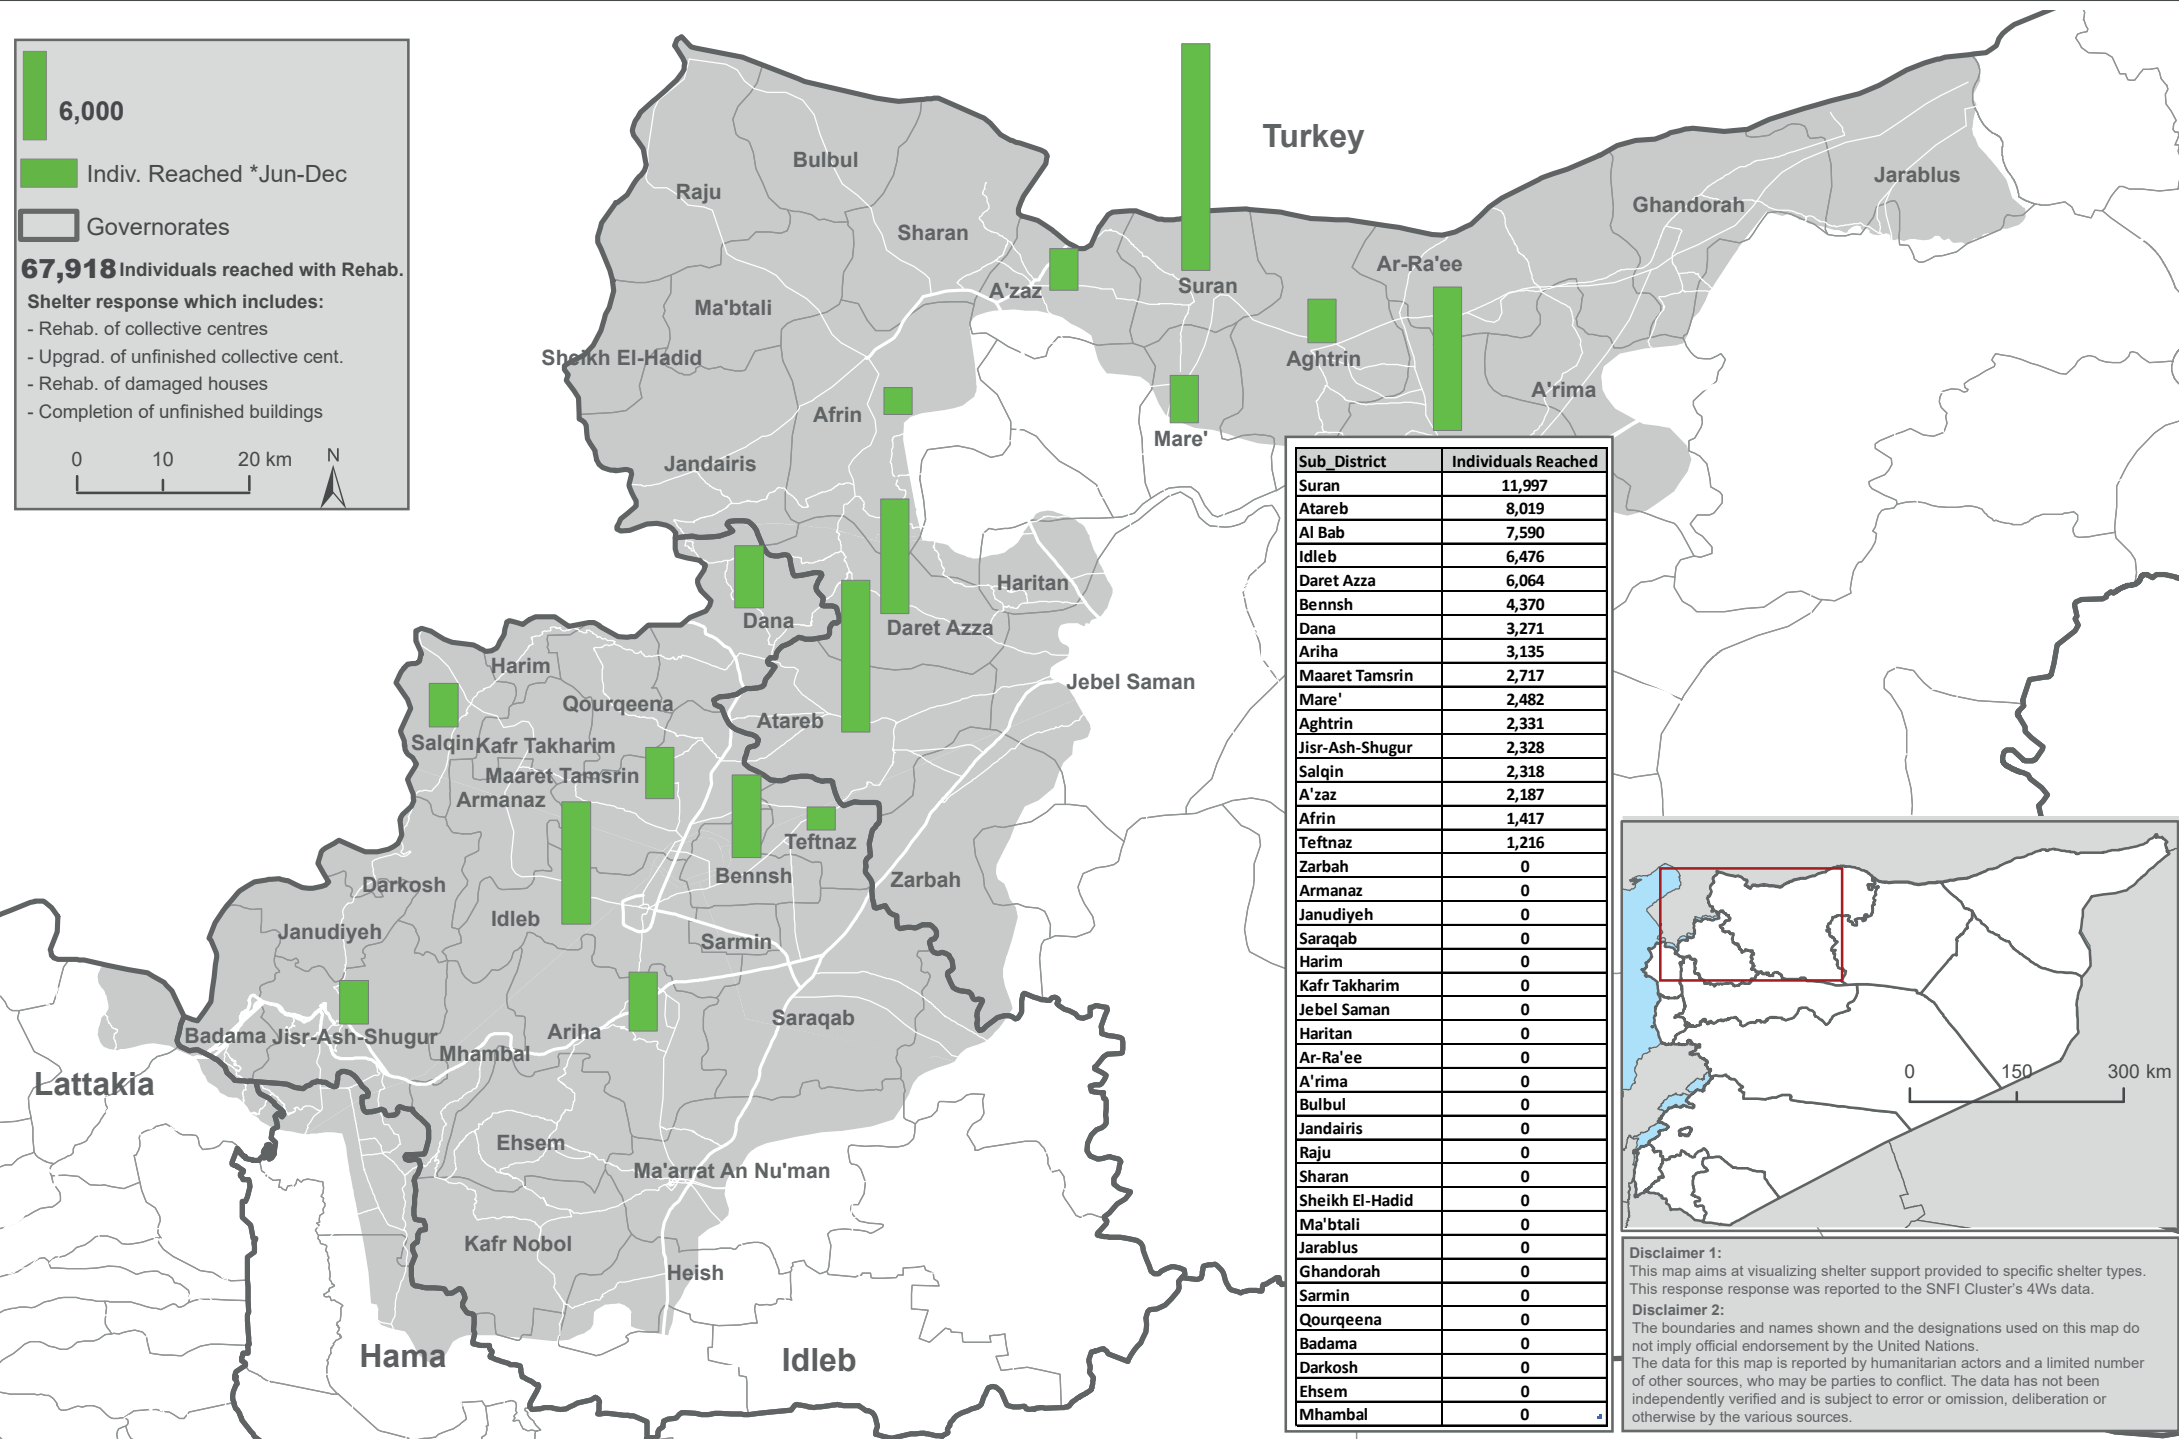

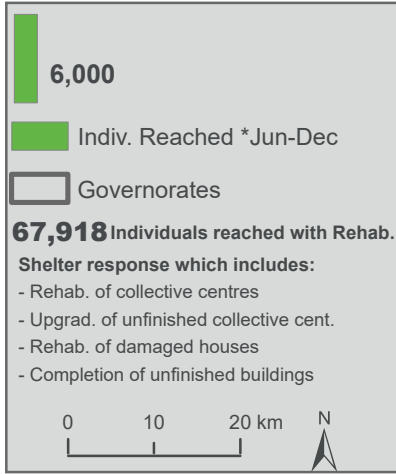

**Disclaimer 1:**  
The number of in-camp IDPs reported by the HNAP does not conditionally reflect the actual total number of IDPs. The situation is highly fluid in Northwest Syria, IDPs are often displaced multiple-times (secondary displacements) and partners on the ground are not always able to ensure that there is no double counting, and some districts might also be missed during the counting process.

**Disclaimer 2:**  
The boundaries and names shown and the designations used on this map do not imply official endorsement by the United Nations. The data for this map is reported by humanitarian actors and a limited number of other sources, who may be parties to conflict. The data has not been independently verified and is subject to error or omission, deliberation or otherwise by the various sources.

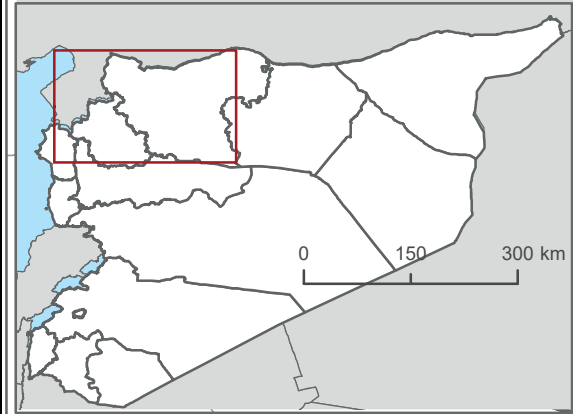

**NFI Response Map:**  
This map is making use of distributed NFI items figures (by sub-district) which were provided by the Cluster's 4Ws data-collection platform for the current reporting month, and compares it to total number of IDPs arrivals provided by HNAP in the reporting month.

**Disclaimer 1:**
