

IDPs receiving NFI Kits in Lainya County, Photo: IOM, 2017

NEEDS ANALYSIS

- Renewed fighting between government and opposition forces renewed in Western bank of Upper Nile contributed to increased displacement. An estimated 25,000 people have fled their home heading to Aburoc, many of them crossing the border to Sudan seeking refuge. In addition, S-NFI supplies valued at over USD 100,000 were looted when partners were evacuated by late April. The Cluster partners returned to Aburoc are currently reassessing the situation to respond to the remaining caseload.
- A rise in violence on April 10 2017 resulted in a large influx to the Wau Protection of Civilian (PoC) site. A total of 13,915 newly displaced individuals were biometrically registered in Wau PoC. Partners are constructing communal shelters and conducting NFI distribution to respond to this new influx.
- Heavy fighting between the armed forces in Raja resulted in massive displacement of the local population. People fled to surrounding areas for protection. Large amount of IDPs reported they are heading to Sudan, while the others are enroute to Wau. Partners are monitoring the situation and planning to assess the needs once security situations are improved.

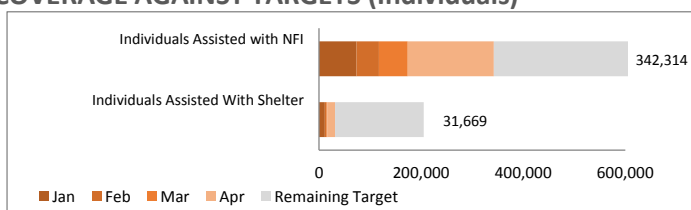

RESPONSE

- Thus far, cluster partners have reached **66,664 Households (342,314 individuals)** with NFIs and **6,369 households (31,648 individuals)** with shelter assistance.
- The core pipeline managed to dispatch **1,288 MT** of stock from Juba to the field locations for both prepositioning and response.
- The cluster partners continue to provide flexible and lightweight kits to affected populations in difficult to reach, remote locations particularly in Central Unity areas. A total of **3,500** survival kits have been distributed.

GAPS & CHALLENGES

Continued fighting and access limitations in various locations in South Sudan particularly in Western bank of Upper State, Juba - Kajojeji road, Northern Jonglei, Yei and surrounding locations and Western Bahr el Ghazal continue hampering of urgent humanitarian assistance to the affected population.

KEY DATES

The Shelter-NFI Cluster was activated in 2011 upon South Sudan's independence from Sudan. Since the civil war began in December 2013, the S-NFI Cluster has drastically scaled up to meet shelter and NFI needs that continue to increase.

Activation of cluster: 2011
