

## QUARTERLY UPDATE

### April-June 2017

#### SECTOR OVERVIEW

##### Current ES/NFI Sector Funding Status Update

The table to the right lists all projects in the ES/NFI Sector in Sudan that have received funding for activities in 2017. The information is gathered from OCHA's Financial Tracking System (FTS) and bilaterally from partners. The 2017 Humanitarian Response Plan (HRP) for Sudan has received US\$ 206.9million of the US\$ 804 million requested (25.7 per cent funded). The Sector funding amounts to US\$ 3,134,510 which is only 15% of the requirement. All sector partners are requests to update the regularly as contributions are received and to provide information on funds secured to the Sector Lead to maintain an accurate overall sector perspective which supports in effective advocacy for additional funding as opportunities arise.

##### Sudan Multi-Year Humanitarian Strategy (MYHS) 2017 – 2019 and Humanitarian Response Plan 2017

The Sudan MYHS for 2017-2019 and the HRP for 2017, were launched on 31st May to address humanitarian needs, using a multi-year approach aimed at working towards a sustainable reduction in needs and vulnerabilities. Emerging life-saving needs are expected to continue in the next three years, requiring the sector to respond to newly displaced populations with the timely provision of ES/NFIs. In 2017, the ES/NFI sector estimates that some 1.5 million people across Sudan (including refugees) will need assistance. Based on available resources, the 32 sector partners, in close coordination, will aim to target some 650,000 people in need, including 300,000 newly displaced due to conflict/disaster; 150,000 of the most vulnerable protracted IDPs and 200,000 returnees/reintegrated people.

Organization	Requested Funding	Funding
ACT/NCA	417,723	187,054
AORD	150,000	
AOSCD	285,010	20,000
CRS	165,256	165,469

GAH		91,169
<b>Total</b>	<b>20,100,000</b>	<b>3,134,510</b>

### Sudan Humanitarian Fund 2017 Emergency Reserve disbursement

Following the disbursement of 2017 standard allocation funds to six ES/NFI sector partners implementing activities in the prioritized locations of Sortony, Tawila in North Darfur, Beida and Krenik in West Darfur, Kass, Nyala and Gerida in South Darfur, Nertiti in Central Darfur, the SHF Reserve for Emergencies allocated US\$ 194,409 to Sector partner SAG for the provision of emergency shelter material to 1246 IDP families and 2520 refugee families newly arrived to ElLait locality in North Darfur following displacement from East Darfur earlier in 2017. Inter communal conflict between farmers and pastoralists in East Darfur forced people to flee their homes and take refuge in El Lait's Dalil Babikir, Dalil Dokhry, Futaha and Fagakh villages which are close to the East Darfur border. In addition, South Sudanese refugees—fleeing hunger and fighting in South Sudan—continue to arrive in ElLait locality. Initial findings of a mission conducted between 19 and 23 March to El Lait identified the main needs of IDPs in the area as emergency shelter, water, food as well as access to health and education services. NFIs were provided by UNHCR through the NFI CP and Refugee stocks

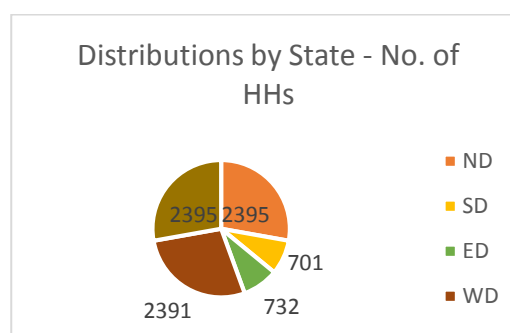

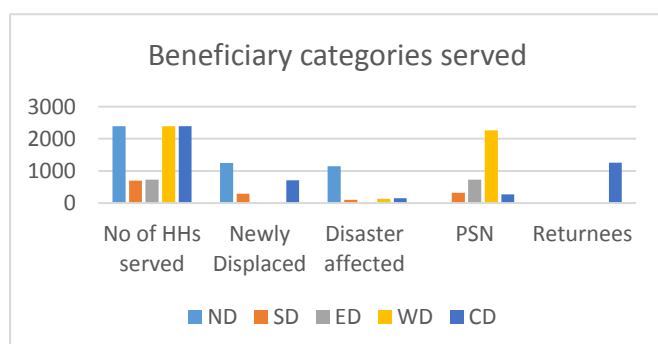

### Cluster Coordination Performance Monitoring exercise (CCPM)

The CCPM exercise for 2017 was completed with a validation workshop held on 11th April to review, further analyze and validate the results. A total of 24 partners participated in the exercise. The workshop provided cluster partners the opportunity to review and discuss the findings of the online survey. This process was guided by the criteria developed by the IASC for evaluating the performance of the cluster, where the partners jointly agreed on actions needed to improve the performance of the cluster. This was done through self-reflection and by identifying areas that are working well and those that required increased attention from the ES/NFI cluster coordinator, cluster lead agency, partners, and national authorities. This participatory process contributed to strengthening transparency and partnership within the cluster. The action points proposed by the six working groups are consolidated into a report / action plan for the Sudan National ES/NFI Cluster, which is available on the global shelter cluster website.

## ES/NFI DISTRIBUTIONS

### NFI Common Pipeline

During the reporting period, the NFI core pipeline provided ES/Fl assistance to 8,614 households, 2,247 conflict affected households (26%), 1,524 disaster affected households (18%), 3,582 most vulnerable protracted IDP households (42%) requiring renewal ES/NFIs and 1,261 returnee households (15%) in Darfur through the distributing partners listed and as per the charts below

NFI Common Pipeline Distributing Partners: Jan-March 2017	
State	Organization
North Darfur	Plan Sudan, Oxfam, KSCS, DDA, SRCS, VNHRD, SAG
South Darfur	UNHCR, COR, AOSCD, NCA, JMCO, RDN, SRCS, IOM
West Darfur	SRCS, NCA, CRS, SORC
Central Darfur	NCA, SORC

### Assistance to Disaster-affected households

ES/NFI sector partners UNHCR and IOM responded to the shelter and NFI needs of some 4,385 fire-affected IDPs in Korma IDP camp in North Darfur. The fire which started in one shelter, quickly spread across the camp due to heavy winds and the crowded camp conditions, resulting in the death of five people, several injuries and the total destruction of the shelters of 1001 families. An inter-agency assessment mission urged urgent intervention with shelter/NFIs, food, medicine and water. The items were provided from the NFI CP and IOM stocks.

### Assistance to Returnees

IOM's DTM exercise registered 10,229 returnees in April, of which 4,385 registered in Otash village, South Darfur had returned from Otash camp; and 5,844 returnees were registered in nine localities in North Darfur, returning either from Chad or from various other locations within North Darfur. The registered returnees indicated that they do not plan to go back to their areas of displacement. Following verification, the ES/NFI sector assists returnees with an NFI package and shelter when possible, to stabilize the returns. During the reporting period, the NFI CP through partner TGH Partner COOPI distributed NFIs for 605 returnees HHs (455 HH Karnoi locality and 150 HH in Mellit rural), whilst IOM assisted 1,000 returnee households in eight villages of Um Dukhun locality, Central Darfur.

### Additionally, partners distributed from their own pipelines as below

**IOM** provided ES/NFI kits to 94 IDP (PSN) households in Murta and Tellow, in Kadugli locality, South Kordofan with extra jerry cans and mosquito nets; to 550 protracted IDP households (PSN) in Habila locality, West Darfur; and to 600 vulnerable IDP households in El Serif IDP Camp, Belil locality, in South

**UNICEF** provided 500 Jerry cans and 20,520 Pcs of soap for hygiene promotion in Korma camp, North Darfu

**UNHCR** provided fire affected households in Zamzam camp with water containers, 36 shovels, 45 rakes, 30 washing basins, 30 torches, 30 hand gloves, 970 soap pieces and 30 jackets.

**SRCS** provided NFIs for 126 fire affected households in El Fasher town.

**TGH** provided shelter materials to 605 vulnerable IDP households in Um Dukhun from villages of Ardim, Soreh, Hajer Obeid, Moraya, Magan and Motor to complement the Plastic sheet and NFIs provided by the NFI

### NFI Common Pipeline Stocks Darfur (as of June 30 2017)

*The NFI CP aims to maintain emergency stock for 5,000 HHs per state (i.e. 5,000 plastic sheets; 10,000 blankets; 10,000 jerry cans; 10,000 sleeping mats and 5000 Cooking sets) for rapid response in the event of a crisis. This was not possible during the first quarter due to lack of funding for procurement*

	Blankets	Kitchen Sets	Jerry cans 20 L	Plastic Sheets	Plastic Roll (10 plastic sheets per roll)	Sleeping Mats
<b>El Fasher</b>	17,155	7,708	21,402	3,524	1,456	15,521
<b>Nyala</b>	5,949	8,615	442	6,583		418
<b>El Geneina</b>	1,808	2654	3,264	2,538		743

## Other pipelines – stock updates

Partner	Locality	Blankets	Jerry can	Plastic Sheet	Sleeping Mats	Cooking Sets	Mosquito Nets	Buckets	Fuel efficient stove	Soap	Clothing	Flip Flops children	Flip Flops Women	Hoes	Hygiene kits
SRCS	EL Fasher	2,616	3,552	1,021	581	547	10,492	933	231	11,041	4,364	230	1,865	615	980

## DURABLE SOLUTIONS FOR PROTRACTED IDP

A durable solutions expert from the Global Early Recovery Sector and a JIPS team visited Darfur from 5-6 April 2017. The mission also included HAC federal, line ministries, UN agencies and NGOs to develop the terms for a durable solutions profiling exercise to be piloted in North Darfur (El Fasher IDP camps) and Central Darfur (Um Dukhun). The ES/NFI sector is supporting durable solutions with the construction of transitional shelters for vulnerable protracted IDPs and returnees with simultaneous training as an income generating activity

### Transitional shelter activity

#### North Darfur

**UNHCR with UNDP and AHA** completed a monitoring and evaluation mission to Kornoi locality to assess the transitional shelter project for 100 SSB shelters implemented by UPO. The project covered three locations (Kornoi Town: 60 shelters; Garselba: 25 shelters and Gatat: 15 shelters). The beneficiaries were very shelters were are already now occupied by the. The SSB machines have been left with the communities.

UNHCR/UPO shelter in North Darfur

#### West Darfur

**UNHCR** handed over 66 transitional shelters constructed for vulnerable returnee families in West Darfur on 24 April in a joint handover ceremony with UNDP, UNOPS and UNICEF. The shelters were constructed as part of a joint project with UNDP for sustainable return of IDPs and Refugees under the Darfur Development Strategy Project. A total of 120 shelters have been constructed under this project.

**IOM** is constructing 400 transitional shelters for vulnerable returnee households in seven returns villages in the localities of Beida, El Geneina and Sirba. The construction of 43 shelters in Hashaba has been completed, and the construction of 187 shelters is ongoing in Farita, and Majmari return villages. Assessments are ongoing for the selection of beneficiaries in other locations.
