

NFI distributions in AllahKareem, Kordofan

NEED ANALYSIS

- Between 159,000 and 194,000 people estimated to be displaced by conflicts in Jebel Marra beginning January 2016. Returns have been reported following stabilization in some parts but not verified due to lack of access.
- An inter-sector mission assessed the needs of some 3,000 newly displaced persons reported to be in need of shelter and NFI assistance in West Kordofan State, following hostilities between the Sudan People's Liberation Movement-North and the Sudan Armed Forces.
- Heavy rains and flash floods beginning July 2016, affected various parts of Sudan including parts of Darfur, Blue Nile, Kassala, Khartoum, North Darfur, Northern, Sennar, White Nile and South and West Kordofan states affecting some 204,000 people.

RESPONSE

- Humanitarian actors continue to assess needs and provide assistance to thousands of IDPs, returnees and other affected communities as a result of Jebel Marra hostilities. The ES/NFI sector has assisted some 100,296 people in North, Central and South Darfur, with additional response on-going in Tawilla Locality in North Darfur.
- The ES/NFI sector has responded to 71,680 flood-affected people in Darfur and other surrounding states Kassala, Sennar, Kordofan, and White Nile States

GAPS / CHALLENGES

- Lack of access is limiting verification of the actual number of displaced in the various locations in Jebel Marra that were affected and more importantly, reports of civilians inside Jebel Marra, who did not flee and may be in need of humanitarian assistance and protection.
- Difficulties in conducting post distribution monitoring in locations affected by the Jebel Marra conflict due to access

COVERAGE AGAINST TARGETS (HH)

Emergency shelter and Non-food items delivered Jan to September 2016	
Total NFIs (blankets, sleeping mats, jerry cans, kitchen sets) delivered	178,102
No of beneficiaries assisted	433165
